Playthings, 1927 *Terraform* Brian Merchant, Claire L. Evans, 2022-08-16 An anthology of near future science fiction from VICE s acclaimed innovative digital speculative story destination Terraform in print for the first time Terraform hones the predictive capacity of science fiction and seeks new vivid and visceral ways to depict the future we re hurtling toward translating the decay and anxiety that surround us into something else something unexpected something that burns like a beacon and upends the conventional ideas of where we ll end up next Section by section Watch Worlds Burn the book takes on surveillance artificial intelligence and climate collapse With a potent roster of established names and rising talents from Bruce Sterling Ellen Ullman Cory Doctorow Jeff VanderMeer and Omar El Akkad to E Lily Yu Elvia Wilk Fernando Flores Tochi Onyebuchi and Gus Moreno it confronts the issues that orbit our everyday existence and takes them to unsettling dimensions *Connected Histories* Eva Pfanzelter, Dirk Rupnow, Éva Kovács, Marianne Windsperger, 2024-09-23 The World Wide Web WWW and digitisation have become important sites and tools for the history of the Holocaust and its commemoration Today some memory institutions use the Internet at a high professional level as a venue for self presentation and as a forum for the discussion of Holocaust related topics for potentially international transcultural and interdisciplinary

user groups At the same time it is not always the established institutions that utilise the technical possibilities and potential of the Internet to the maximum Creative and sometimes controversial new forms of storytelling of the Holocaust or more traditional ways of remembering the genocide presented in a new way with digital media often come from people or groups who are not in the realm of influence of the large memorial sites museums and archives Such private stagings have experienced a particular upswing since the boom of social media This democratisation of Holocaust memory and history is crucial though it is as yet undecided how much it will ultimately reinforce old structures and cultural regional or other inequalities or reinvent them The Digital space as an arbitrary and limitless archive for the mediation of the Holocaust spanning from Russia to Brazil is at the centre of the essays collected in this volume This space is also considered as a forum for negotiation a meeting place and a battleground for generations and stories and as such offers the opportunity to reconsider the transgenerational transmission of trauma family histories and communication Here it becomes evident there are new societal intentions and decision making structures that exceed the capabilities of traditional mass media and thrive on the participation of a broad public

The Human Factor of Cybercrime Rutger Leukfeldt, Thomas J. Holt, 2019-10-11
Cybercrimes are often viewed as technical offenses that require technical solutions such as antivirus programs or automated intrusion detection tools However these crimes are committed by individuals or networks of people which prey upon human victims and are detected and prosecuted by criminal justice personnel As a result human decision making plays a substantial role in the course of an offence the justice response and policymakers attempts to legislate against these crimes This book focuses on the human factor in cybercrime its offenders victims and parties involved in tackling cybercrime The distinct nature of cybercrime has consequences for the entire spectrum of crime and raises myriad questions about the nature of offending and victimization For example are cybercriminals the same as traditional offenders or are there new offender types with distinct characteristics and motives What foreground and situational characteristics influence the decision making process of offenders Which personal and situational characteristics provide an increased or decreased risk of cybercrime victimization This book brings together leading criminologists from around the world to consider these questions and examine all facets of victimization offending offender networks and policy responses Chapter 13 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
