Lecture Notes On Labor Economics

George J. Borjas

Lecture Notes On Labor Economics:

Labor Economics Course Materials, 1981 **Big Data Applications in Labor Economics** Benjamin

Elsner, Solomon W. Polachek, 2024-12-10 *Big Data Applications in Labor Economics* showcases news original research using Big Data to gain new insights into how labor markets work The volume is compiled by Solomon Polachek a pioneer in gender related labor market research and Benjamin Elsner an expert on causal inference and the economics of migration *Seven Decades of Econometrics and Beyond* Badi H. Baltagi, László Mátyás, 2025-05-17 This volume honors the life and legacy of renowned economist and econometrician Marc Nerlove who passed away in July 2024 His influential contributions to the field have left a lasting impact on econometrics and the broader economics profession The book features high quality original research across various domains of theoretical and applied econometrics reflecting Nerlove s broad range of interests It includes survey chapters that provide valuable insights into key areas of econometrics enhancing readers understanding of important topics Where relevant personal tributes and reflections on Marc Nerlove s work are thoughtfully interwoven into the chapters This volume offers cutting edge findings in panel data analysis agricultural population and spatial economics income inequality and more The diversity of topics discussed highlights the profound and far reaching influence of Marc Nerlove s career on the field of economics

Foundations of Real-World Economics John Komlos, 2023-03-20

The 2008 financial crisis the rise of Trumpism and the other populist movements which have followed in their wake have grown out of the frustrations of those hurt by the economic policies advocated by conventional economists for generations Despite this textbooks remain frozen in time continuing to uphold traditional policies as though nothing has happened *Foundations of Real World Economics* demonstrates how misleading it can be to apply oversimplified models of perfect competition to the real world The math works well on college blackboards but not so well on the Main Streets of America This volume explores the realities of oligopolies the real impact of the minimum wage the double edged sword of free trade and other ways in which powerful institutions cause distortions in mainstream models Bringing together the work of key scholars like Kahneman Minsky and Schumpeter this textbook takes into consideration the inefficiencies that arise when the perfectly competitive model is applied to the real world dominated by multinational oligopolies The third edition has been updated throughout bringing in new material on the financial crises the rise of populism racism inequality climate change and the Covid 19 pandemic A must have for students studying the principles of economics as well as micro and macroeconomics this textbook redresses the existing imbalance in economic teaching as John Komlos focuses on the paradigm of humanistic economics

Monopsonistic Labour Markets and the Gender Pay Gap Boris Hirsch, 2010-04-05

This book investigates models of spatial and dynamic monopsony and their application to the persistent empirical regularity of the gender pay gap

Immigration Economics George J. Borjas, 2014-06-09

Nearly 3% of the world s population no longer live in the country where they were born George Borjas synthesizes the theories models and econometric methods used to identify the causes

and consequences of international labor flows and lays out with clarity a full spectrum of topics with crucial implications for framing debates over immigration

Economics Reading Lists, Course Outlines, Exams, Puzzles & Problems: Labor economics reading lists, 1995

[Anti-Capital: Human, Social and Cultural](#) Jacek Tittenbrun, 2016-04-15 The notion of capital has enjoyed a rich career in the social sciences its use across a range of subjects and in diverse academic and professional contexts having served to establish its conceptual status as given With particular attention to human and social capital including cultural capital this book traces the roots of this theoretical and conceptual trend to economics revealing the proliferation of various forms of capital to be based upon an encroachment of the conceptual apparatus of economics into other social sciences Offering an in depth critical analysis of the concepts of human and social capital as well as their surrounding theories Anti Capital Human Social and Cultural proposes an alternative theoretical framework whilst better explaining the realities that they mask in economic terms A rigorous exploration of the most popular forms of capital in the contemporary social sciences this book will be of interest to scholars and students of sociology political and social theory demography and economics

Macroeconomics Wendy Carlin, David W. Soskice, 2015 Carlin and Soskice integrate the financial system with a model of the macro economy In doing this they take account of the gaps in the mainstream model exposed by the financial crisis and the Eurozone crisis This equips the reader with a realistic modelling framework to analyse the economy both in crisis times and in periods of stability
