Amazon Paul Smith, Alexander Monea, Maillim Santiago, 2022-11-28 Amazon is everywhere In our mailboxes in delivery vans clogging our streets in an increasing portion of our air traffic in our grocery stores on our televisions in our smart home devices and in the infrastructure powering many of the websites we visit Amazon's tendrils touch the majority of online retail transactions in the United States and in many other countries As Amazon changes the face of capitalist business it is also changing global culture in multiple ways This book brings together some of the most important analyses of Amazon's pioneering business practices and how they intersect with and affect the components of everyday culture Its contributors examine the political economy of Amazon's platform making the argument that it operates as an unregulated monopoly that is disruptive to the global economy and that its infrastructure and logistical operations increasingly alienate its workers and wreak many other social harms Our contributors outline the practices of resistance that have been employed by organizers ranging from Amazon employees to artists to digital piecemeal laborers working on Amazon's Mechanical Turk platform They examine the broader cultural impact that Amazon has had looking at things like Amazon Prime and the creation of unending consumption the absorption of Whole Foods and its brand of conscious capitalism and the impact of Amazon Studios and Prime Video on everyday film and television viewing practices This book examines the broader environmental impacts that Amazon is having on the world looking at the slow violence it incurs its underwhelming Climate Pledge and the regional impacts that its business practices have Lastly this book gathers together some important artistic responses to Amazon for the first time in an appendix that offers readers insight into other ways in which critics of the company are making their voices heard and attempting to move broader audiences into solidarity against Amazon

The Everything War Dana Mattioli, 2024-04-23 Most Anticipated by Foreign Policy Globe and Mail Next Big Idea Club Must Read April Books A Publishers Weekly Best Book of the Year Will stand as a classic Christopher Leonard Riveting shocking and full of revelations Bryan Burrough From the Pulitzer Prize winning veteran Amazon reporter for The Wall Street Journal The Everything War is the first untold devastating expos of Amazon's endless strategic greed from destroying Main Street to remaking corporate power in pursuit of total domination by any means necessary In 2017 Lina Khan published a paper that accused Amazon of being a monopoly having grown so large and embedded in so many industries it was akin to a modern day Standard Oil Unlike Rockefeller's empire however Bezos's company had grown voraciously without much scrutiny In fact for over twenty years Amazon had emerged as a Wall Street darling and its customer obsession approach made it indelibly attractive to consumers across the globe But the company was not benevolent it operated in ways that ensured it stayed on top Lina Khan's paper would light a fire in Washington and in a matter of years she would become the head of the FTC In 2023 the FTC filed a monopoly lawsuit against Amazon in what may become one of the largest antitrust cases in the 21st century With unparalleled access and having interviewed hundreds of people from Amazon executives to competitors to small businesses

who rely on its marketplace to survive Mattioli exposes how Amazon was driven by a competitive edge to dominate every industry it entered bulldozed all who stood in its way reshaped the retail landscape transformed how Wall Street evaluates companies and altered the very nature of the global economy It has come to control most of online retail and uses its own sellers data to compete with them through Amazon's own private label brands Millions of companies and governmental agencies use AWS paying hefty fees for the service And the company has purposefully avoided collecting taxes for years exploited partners and even copied competitors leveraging its power to extract whatever it can at any cost It has continued to gain market share in disparate areas from media to logistics and beyond Most companies dominate one or two industries Amazon now leads in several And all of this was by design The Everything War is the definitive inside story of how it grew into one of the most powerful and feared companies in the world and why this lawsuit opens a window into the most consequential business story of our times

Microeconomics in Context Neva Goodwin,Jonathan M. Harris,Julie A. Nelson,Brian Roach,Mariano Torras,2015-12-07 Microeconomics in Context lays out the principles of microeconomics in a manner that is thorough up to date and relevant to students Like its counterpart Macroeconomics in Context the book is uniquely attuned to economic realities The in Context books offer affordability accessible presentation and engaging coverage of current policy issues from economic inequality and global climate change to taxes Key features include Clear explanation of basic concepts and analytical tools with advanced models presented in optional chapter appendices Presentation of policy issues in historical institutional social political and ethical context an approach that fosters critical evaluation of the standard microeconomic models such as welfare analysis labor markets and market competition A powerful graphical presentation of various measures of well being in the United States from income inequality and educational attainment to home prices Broad definition of well being using both traditional economic metrics and factors such as environmental quality health equity and political inclusion New chapters on the economics of the environment taxes and tax policy common property and public goods and welfare analysis Expanded coverage of high interest topics such as behavioral economics labor markets and healthcare Full complement of instructor and student support materials online including test banks and grading through Canvas

Winner Sells All Jason Del Rey,2023-06-20 A riveting investigation of the no holds barred battle between Amazon and Walmart to become the king of commerce For years Walmart and Amazon operated in separate spheres one a massive brick and mortar retailer the other an online giant But in 2016 Walmart aggressively moved into the world of e commerce while Amazon made big bets in physical retail The resulting rivalry is a bare knuckle power struggle as each titan tries to outmaneuver the other to become the biggest omnichannel retailer in the world As the two megacorporations have consolidated power troubling consequences have also emerged for consumers and small merchants faced with fewer buying and selling options and for millions of workers paid meager wages for demanding and sometimes dangerous work Winner Sells All is a tale of disruption and big money moves with legendary executives and fearless

entrepreneurs in a battle between rival corporations and sometimes even within the same company to invent the future and cement their own legacies Veteran journalist Jason Del Rey chronicles the defining business clash of this generation a war waged for our loyalty and our wallets with hundreds of billions of dollars at stake and millions of jobs on the line As both companies continue to expand their empires into new industries Winner Sells All reveals how this battle will change the ways we shop live and work for decades to come

The Amazon Lopes Gonçaves,1904

Principles of Economics in Context Neva Goodwin,Jonathan M. Harris,Julie A. Nelson,Brian Roach,Mariano Torras,2015-03-04

Principles of Economics in Context lays out the principles of micro and macroeconomics in a manner that is thorough up to date and relevant to students attuned to the economic realities of the world around them It offers engaging treatment of important current topics such as new thinking in behavioral economics financial instability and market bubbles debt and deficits and policy responses to the problems of unemployment inequality and environmental sustainability This new affordable edition combines the just released new editions of Microeconomics in Context and Macroeconomics in Context to provide an integrated full year text covering all aspects of both micro and macro analysis and application with many up to date examples and extensive supporting web resources for instructors and students Key features include An eye opening statistical portrait of the United States Clear explanation of basic concepts and analytical tools with advanced models presented in optional chapter appendices Presentation of policy issues in historical institutional social political and ethical context an approach that fosters critical evaluation of the standard microeconomic models such as welfare analysis labor markets and market competition Issues of human well being both domestic and global are given central importance enriching the topics and analytical tools to which students are introduced The theme of sustainability financial social and ecological is thoroughly integrated in the book with chapters on alternatives to standard GDP measurement the environment common property public goods and growth and sustainability in the twenty first century Full complement of instructor and student support materials online including test banks and grading through Canvas

Managerial Economics William F. Samuelson,Stephen G. Marks,Jay L. Zagorsky,2021-01-11

Managerial Economics 9th Edition introduces undergraduates MBAs and executives to the complex decision problems today s managers face providing the knowledge and analytical skills required to make informed decisions and prosper in the modern business environment Going beyond the traditional academic approach to teaching economic analysis this comprehensive textbook describes how practicing managers use various economic methods in the real world Each in depth chapter opens with a central managerial problem challenging readers to consider and evaluate possible

choices and concludes by reviewing and analyzing the decision through the lens of the concepts introduced in the chapter. Extensively updated throughout the text makes use of numerous extended decision making examples to discuss the foundational principles of managerial economics illustrate key concepts and strengthen students critical thinking skills. A range of problems building upon material covered in previous chapters are applied to increasingly challenging applications as students advance through the text. Favoring practical skills development over complicated theoretical discussion the book includes numerous mini problems that reinforce students quantitative understanding without overwhelming them with an excessive amount of mathematics.

Amazon Prices: Bestsellers in 2023 The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous captivating novels enthraling the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the fascinating narratives that have captivated audiences this year.

The Must-Read : Colleen Hoover's "It Ends with Us" This touching tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph.

Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery.

Discover the Magic : Delia Owens "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting.

These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered.

The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts.

The Secret History is a brilliant and suspenseful novel that will keep you speculating until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
