Contextualization and the Old Testament Jerry Hwang, 2022-09-26 Christianity is often viewed in Asia as a Western imposition. Challenging this, Dr. Jerry Hwang examines the Old Testament's cultural engagement of its ancient Near Eastern context, arguing that Scripture itself provides the ultimate model for contextualizing theology in Asia. While it is common for missiological studies to ignore the Old Testament in their discussion of contextualization, truly biblical contextualization must include the whole Bible, not simply the New Testament. This study provides insightful discourse between the Old Testament and various Asian contexts while demonstrating how Asian perspectives can help overcome the Eurocentrism prevalent in Old Testament scholarship. This is an ideal resource for scholars and practitioners interested in a biblical perspective of contextualization, especially as related to constructing theology that honors the truth of Scripture in the context of Asia.

The 2013 Update also includes the must-cover events and trends students need to know to become informed media consumers and critics, from social media's influence on political events like the Occupy Wall Street movement and the Arab Spring revolutions, and what the News Corp. phone hacking scandal means for journalism, to the continued growth of television streaming and apps, and the advent of tablet-only newspapers. History by HBO Rebecca Weeks, 2022-07-12 The television industry is changing, and with it, the small screen's potential to engage in debate and present valuable representations of American history. Founded in 1972, HBO has been at the forefront of these changes, leading the way for many network, cable, and streaming services into the post-network era. Despite this, most scholarship has been dedicated to analyzing historical feature films and documentary films, leaving TV and the long-form drama hungry for coverage. In *History by HBO: Televising the American Past*, Rebecca Weeks fills the gap in this area of media studies and defends the historiographic power of long-form dramas. By focusing on this change and its effects, *History by HBO* outlines how history is crafted on television and the diverse forms it can take. Weeks examines the capabilities of the long-form serial for engaging with historical stories, insisting that the shift away from the network model and toward narrowcasting has enabled challenging histories to thrive in home settings. As an examination of HBO's unique structure for producing quality historical dramas, Weeks provides four case studies of HBO series set during different periods of United States history. Band

of Brothers 2001 Deadwood 2004 2007 Boardwalk Empire 2012 2014 and Treme 2010 2013 In each case HBO's lack of advertiser influence commitment to creative freedom and generous budgets continue to draw and retain talent who want to tell historical stories Balancing historical and film theories in her assessment of the roles of mise en scene characterization narrative complexity and sound in the production of effective historical dramas Weeks evaluation acts as an ode to the most recent Golden Age of TV as well as a critical look at the relationship between entertainment media and collective memory
