Heroic Identity in the World of Beowulf Scott Gwara, 2009-01-31 Readers of Beowulf have noted inconsistencies in Beowulf's depiction as either heroic or reckless *Heroic Identity in the World of Beowulf* resolves this tension by emphasizing Beowulf's identity as a foreign fighter seeking glory abroad Such men resemble wreccean exiles compelled to leave their homelands due to excessive violence Beowulf may be potentially arrogant therefore but he learns prudence This native wisdom highlights a king's duty to his warband in expectation of Beowulf's future rule The dragon fight later raises the same question of incompatible identities hero versus king In frequent reference to Greek epic and Icelandic saga this revisionist approach to Beowulf offers new interpretations of flyting rhetoric the custom of men dying with their lord and the poem's digressions

Narrating the Law Barry Scott Wimpfheimer, 2011-07-19 In *Narrating the Law* Barry Scott Wimpfheimer creates a new theoretical framework for considering the relationship between law and narrative and models a new method for studying talmudic law in particular Works of law including the Talmud are animated by a desire to create clear usable precedent This animating impulse toward clarity is generally absent in narratives the form of which is better able to capture the subtleties of lived life Wimpfheimer proposes to make these different forms compatible

by constructing a narrative based law that considers law as one of several languages along with politics ethics psychology and others that together compose culture A narrative based law is capable of recognizing the limitations of theoretical statutes and the degree to which other cultural languages interact with legal discourse complicating any attempts to actualize a hypothetical set of rules This way of considering law strongly resists the divide in traditional Jewish learning between legal literature Halakhah and nonlegal literature Aggadah by suggesting the possibility of a discourse broad enough to capture both Narrating the Law activates this mode of reading by looking at the Talmud s legal stories a set of texts that sits uncomfortably on the divide between Halakhah and Aggadah After noticing that such stories invite an expansive definition of law that includes other cultural voices Narrating the Law also mines the stories for the rich descriptions of rabbinic culture that they encapsulate
