public who wish to incorporate science technology engineering art and math STEAM into their programs and collections but
aren t sure where to begin Most educators are well aware of the reasons for emphasizing STEAM topics that fall within the
broad headings of science technology engineering arts and mathematics in the curriculum regardless of grade level But how
do librarians who work with tweens in middle school high school and public libraries fit into the picture and play their roles
to underscore their relevance in making STEAM initiatives successful This book answers those key questions providing
program guidelines and resources for each of the STEAM areas Readers will learn how to collaborate in STEAM efforts by
providing information on resources activities standards conferences museums programs and professional organizations
Emphasis is placed on encouraging girls and minorities to take part in and get excited about STEAM In addition the book
examines how makerspaces can enhance this initiative how to connect your programs to educational standards where to find
funding how to effectively promote your resources and programs including how school and public librarians can collaborate
to maximize their efforts how to find and provide professional development and how to evaluate your program to make
further improvements and boost effectiveness Whether you are on the cusp of launching a STEAM initiative or looking for
