

Microcontroller-based Wireless Heart Rate Telemonitor for Home Care

Sanjay Verma, Namit Gupta,

Electronics Department, S.V.I.T.S. INDORE/R.G.P.V. University Bhopal, India

Abstract: - Homecare is the provision of health care services to patients in their own home. One of the main purposes of homecare telemedicine is to develop a wireless, low-cost and use-friendly system which allows patients to measure their own vital signs, such as heart rate and temperature, and provide the health care professionals with the facility to remotely monitor the patient's vital signs quickly and easily. The gadget would then activate a GSM modem (SIM based) and also a GPS (global positioning system). The gadget would then take out the location reading from the GPS. Other vital information such as Heart Rate and temperature is taken and sent to predefined numbers. The receiver will get an SMS which will contain information of the senior person with his/her position co-ordinates and his/her current status (Heart Rate). An onscreen display will start scrolling the person's name, address and contact details so that people who try to help such a person get the complete information from the device.

Keywords - PIC Microcontroller, LM35, GPS, GSM, Heart Rate sensor.

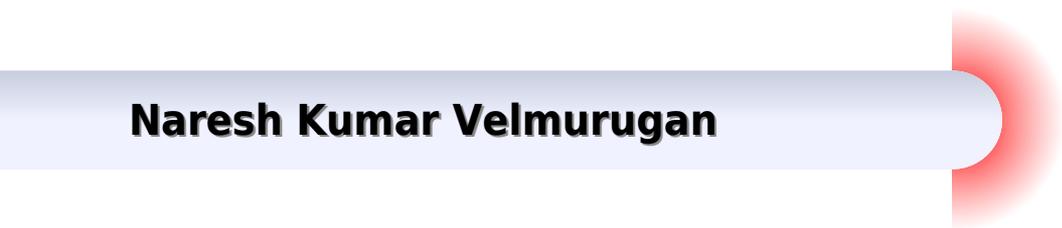

1. INTRODUCTION

Today, the medical field is faced with growing public concerns and government demands for reform. The outrage is directed at the high costs of quality health care and the inability of healthcare specialists to provide adequate medical services to rural populations. The availability of prompt and expert medical care can meaningfully improve health-care services at understaffed rural and remote areas [1-3]. In distant regions of the country the degree of development of healthcare providing services has not reached the appropriate level to adequately address the health care needs of the populations in these areas. A mobile monitoring system utilizing Short Message Service with low-cost hardware equipment has been developed and implemented to enable transmission of the temperature and Heart Rate signal of a patient [10]. At the consultation unit, dedicated application software is required to manage the follow of SMS messages from the Mobile and display the temperature and Heart Rate of the patient. The special of this device is it is not only measure Heart Rate and temperature measurement, but also will display the measured Heart Rate in beat per minute. The device consists of electronic circuit system, embedded system which is microcontroller program. The Heart Rate monitoring systems consists infrared LED, photo transistor as a sensing device for the Heart Rate system. Conventional telemedicine systems using Public Switched Telephone Network (PSTN) land lines are already available to enable a doctor to monitor a patient remotely for home care or emergency applications [5], [6]. Also, the mobile phone has been recognized as a possible tool for telemedicine since it became commercially available. This system which allows patients to measure their own vital signs, such as Heart Rate, temperature and provide the health care professionals with the facility to remotely monitor the patient's vital signs quickly and easily, vital signs can be transmitted from an ambulance to a hospital in a store-and forward mode [7], [8], or in real-time mode [9].

A PIC16C774A microcontroller was then interfaced to the wearable Heart Rate signal to collect the data from these devices, process them, store them and feed them to a transmitter. A high performance RF Module Tri-Band GSM/GPRS 900/ 1800/ 1900 MHz transmitter and receiver were then used to Wirelessly transmit and receive the vital signs data from the micro-controller to the consultation unit, dedicated application is required to manage the follow of SMS messages from the Mobile and display the temperature, location and Heart Rate of the patient".

Microcontroller Based Wireless Heart Rate Telemonitor For

Advanced Computational and Communication Paradigms Siddhartha Bhattacharyya, Tapan Gandhi, Kalpana Sharma, Paramartha Dutta, 2018-06-07 The book titled Advanced Computational and Communication Paradigms Proceedings of International Conference on ICACCP 2017 Volume 1 presents refereed high quality papers of the First International Conference on Advanced Computational and Communication Paradigms ICACCP 2017 organized by the Department of Computer Science and Engineering Sikkim Manipal Institute of Technology held from 8-10 September 2017 ICACCP 2017 covers an advanced computational paradigms and communications technique which provides failsafe and robust solutions to the emerging problems faced by mankind Technologists scientists industry professionals and research scholars from regional national and international levels are invited to present their original unpublished work in this conference There were about 550 technical paper submitted Finally after peer review 142 high quality papers have been accepted and registered for oral presentation which held across 09 general sessions and 05 special sessions along with 04 keynote address and 06 invited talks This volume comprises 65 accepted papers of ICACCP 2017 Computational Science and Engineering Arpan Deyasi, Soumen Mukherjee, Pampa Debnath, Arup Kumar Bhattacharjee, 2016-12-19 Computational Science and Engineering contains peer reviewed research presented at the International Conference on Computational Science and Engineering RCC Institute of Information Technology Kolkata India 4-6 October 2016 The contributions cover a wide range of topics electronic devices photonics electromagnetics soft computing artificial intelligence modern communication systems Focussing on strong theoretical and methodological approaches and applications Computational Science and Engineering will be of interest to academia and professionals involved or interested in the above mentioned domains *Proceedings of the 25th Annual International Conference of the IEEE Engineering in Medicine and Biology Society* IEEE Engineering in Medicine and Biology Society. Conference, 2003 Proceedings of the Multi-Conference 2011 Himanshu B. Soni, Apurva Shah, 2011-06-06 The International Conference on Signals Systems and Automation ICSSA 2011 aims to spread awareness in the research and academic community regarding cutting edge technological advancements revolutionizing the world The main emphasis of this conference is on dissemination of information experience and research results on the current topics of interest through in depth discussions and participation of researchers from all over the world The objective is to provide a platform to scientists research scholars and industrialists for interacting and exchanging ideas in a number of research areas This will facilitate communication among researchers in different fields of Electronics and Communication Engineering The International Conference on Intelligent System and Data Processing ICISD 2011 is organized to address various issues that will foster the creation of intelligent solutions in the future The primary goal of the conference is to bring together worldwide leading researchers developers practitioners and educators interested in advancing the state of the art in computational intelligence and data processing for exchanging knowledge that encompasses a broad range of disciplines among various

distinct communities Another goal is to promote scientific information interchange between researchers developers engineers students and practitioners working in India and abroad [EMBC 2004 IEEE Engineering in Medicine and Biology Society. Conference,2004](#) **Intelligent Pervasive Computing Systems for Smarter Healthcare** Arun Kumar Sangaiah,S.P. Shantharajah,Padma Theagarajan,2019-06-21 A guide to intelligent decision and pervasive computing paradigms for healthcare analytics systems with a focus on the use of bio sensors Intelligent Pervasive Computing Systems for Smarter Healthcare describes the innovations in healthcare made possible by computing through bio sensors The pervasive computing paradigm offers tremendous advantages in diversified areas of healthcare research and technology The authors noted experts in the field provide the state of the art intelligence paradigm that enables optimization of medical assessment for a healthy authentic safer and more productive environment Today s computers are integrated through bio sensors and generate a huge amount of information that can enhance our ability to process enormous bio informatics data that can be transformed into meaningful medical knowledge and help with diagnosis monitoring and tracking health issues clinical decision making early detection of infectious disease prevention and rapid analysis of health hazards The text examines a wealth of topics such as the design and development of pervasive healthcare technologies data modeling and information management wearable biosensors and their systems and more This important resource Explores the recent trends and developments in computing through bio sensors and its technological applications Contains a review of biosensors and sensor systems and networks for mobile health monitoring Offers an opportunity for readers to examine the concepts and future outlook of intelligence on healthcare systems incorporating biosensor applications Includes information on privacy and security issues on wireless body area network for remote healthcare monitoring Written for scientists and application developers and professionals in related fields Intelligent Pervasive Computing Systems for Smarter Healthcare is a guide to the most recent developments in intelligent computer systems that are applicable to the healthcare industry [4th European Conference of the International Federation for Medical and Biological Engineering 23 - 27 November 2008, Antwerp, Belgium](#) Jos van der Sloten,Pascal Verdonck,Marc Nyssen,Jens Haueisen,2009-02-04 The 4th European Congress of the International Federation for Medical and Biological Federation was held in Antwerp November 2008 The scientific discussion on the conference and in this conference proceedings include the following issues Signal Image Processing ICT Clinical Engineering and Applications Biomechanics and Fluid Biomechanics Biomaterials and Tissue Repair Innovations and Nanotechnology Modeling and Simulation Education and Professional *User-Driven Healthcare: Concepts, Methodologies, Tools, and Applications* Management Association, Information Resources,2013-01-31 *User Driven Healthcare Concepts Methodologies Tools and Applications* provides a global discussion on the practice of user driven learning in healthcare and connected disciplines and its influence on learning through clinical problem solving This book brings together different perspectives for researchers and practitioners to develop a comprehensive framework of user driven healthcare [Index to](#)

IEEE Publications Institute of Electrical and Electronics Engineers, 1998 Issues for 1973 cover the entire IEEE technical literature

Development of an Optical Heart Rate Monitor Using a Microchip PIC24-microcontroller Based Development Board Aparna Rakurthi, 2012 The primary goal of this thesis is to develop a prototype device that can be used to demonstrate some key and fundamental concepts related to the disciplines of computer and electrical engineering to freshman engineering students This objective is achieved through the development of a heart rate monitor that primarily consists of a sensor module for heart beat detection and a Microchip PIC microcontroller based development board for heart rate calculation The central element of the sensor module is an optical detection system that consists of a light emitting diode and photodiode setup to detect heart beat from a measurement site with strong pulse like a fingertip The obtained heart beat signal is then passed through multiple amplification and filtering stages to obtain a clean and strong heart beat signal Using this optical sensor module implemented on a printed circuit board PCB we can demonstrate several concepts related to electrical engineering such as basic electronics semiconductor devices analog circuit design optical electronics PCB design etc The voltage signal obtained from the sensor module is sent to a Microchip Explorer 16 development board for further signal processing and heart rate calculation The development board contains a 16 bit PIC microcontroller with a built in 10 bit analog to digital converter that is used to digitize the analog voltage signal and calculate heart rate as beats per minute using a heart rate calculation algorithm The calculated heart rate is finally displayed on an alphanumeric liquid crystal display display that is included on the development board This module of the prototype heart rate monitoring system is designed to be interactive and provide user control to the heart rate calculation process while demonstrating some concepts related to computer engineering such as microcontrollers embedded systems software development hardware software co design etc The heart rate monitor developed in this research work has thus been designed to present a prototype device that can be used to demonstrate several key concepts related to computer and electrical engineering and this thesis document contains design and implementation details related to the development of this device

A Microcontroller Based Multi-channel Heart Rate Measurement System Benham Bastani, S. J. Harrold, Electrical Engineering and Electronics, 1992

Cardiac Patients Monitoring at a Distance Christo Ananth, 2017-11-01 Nowadays the number of heart attack patients is increasing day by day Though it is tough to save heart attack patients we can increase the statistics of saving the lives of those patients as well as the lives of those whom the heart attack patients are responsible for The main design of this project is to track heart attack patients suffering a heart attack during driving send them medical help and stop the vehicle they are driving to ensure that the persons along them are spared from accidents An eye blinking sensor is used to monitor the eye blinking rate and a spO2 sensor is used to check the pulse rate of the patient Both are connected to a micro controller If eye blinking stops then the signal is sent to the controller to make an alarm through the buffer If the spO2 sensor perceives a variation in the pulse rate or low oxygen content in the blood which may result in heart failure then the controller stops the

motor of the vehicle Then a Tarang F4 transmitter is used to sent the vehicle number and the mobile phone number of the patient to the nearest medical station within 25 km for medical aid The pulse rate monitored via LCD The Tarang F4 receiver acquires the signal and passes through the controller the number gets displayed on the LCD screen and an alarm is produced through a buzzer as soon the signal is received Five topics are discussed in this project detecting the patient BPM and the eye blinking status transmitting via Tarang F4 in case of abnormalities in the patient the patient status is displayed and indicated by a buzzer the hospital unit receives the patient s mobile phone number and car number and the communication between the vehicle and the hospital through Tarang F4

Designing a Heart Rate Monitor Interfaced with Bluetooth for Wireless Transmission of Data Aaresh Sharma,2017 Abstract With advancements in technology and people being more conscious about their health than ever technical advancements in the field of medicine are inevitable People are switching towards wearable devices to keep track of their health and fitness related data This project looks into the development of a heart rate monitor to keep track of the user s heart rate The report presents the development of a heart rate monitor interfaced with a Bluetooth module to wirelessly view related data on a smartphone or any other Bluetooth compatible device The heart rate monitor developed uses the photoplethysmography PPG principle to calculate the heart beats per minute The PPG module developed is then interfaced with an Arduino Uno board responsible for calculating the beats per minute It then transfers the serial data to a Bluetooth module which transmits the data to another Bluetooth compatible device The results show that the heart rate is successfully transferred over Bluetooth and could be helpful in emergency or monitoring situations

Report of the 12th Meeting of the Technical Advisory Group ,1991 **Bluetooth Wireless Heart Rate Telemonitoring** Wan Fairuz Jamilah W. Mohd. Ridzwan,2011 **MC68HC11 Microcontroller Based Heart Pre-ventricular Contraction Monitor** Fereidoun Safiri,1989 **Development of Wireless Heart Rate Monitor ,2015**

Development of a Heart Rate Variability Measurement System Using Embedded Electronics Naresh Kumar Velmurugan,2014 Recent advances in embedded electronics have a remarkable influence on the health care system One of the most important applications is to monitor the health care of the patients at anytime and anyplace In the last two decades many researchers have focused mainly on heart rate variability HRV measurements Patient s heart rate variability should be continuously monitored to help them in case of emergency Under these circumstances patients are required to have a HRV measuring kit for a constant observation The proposed project focuses on the development of a heart rate variability measurement system with the use of embedded electronics This project consists of two systems transmitter and a receiver side system The transmitter section composed of sensor amplifier processing unit and display unit and transmitter module The sensors which are pasted on the body are used to sense the electrical activity of the heart These electric signals are given to an amplification unit This amplification unit is designed with IC ADS1293 to amplify and filter the signals and also reduce the noise The output of the amplifier is given to the processing unit Here the microcontroller is programmed to

process the input signal and calculate the heart rate. The output of the microcontroller is transmitted to the display unit. The display unit shows the current value of the heart rate. The continuous measurement of heart rate variability is done in the transmitter side system. In case of abnormalities a GSM module is used to transmit the heart rate alert which has been processed by the control unit to the user's mobile phone and GSM receiver modem. In the receiver system GSM receiver modem receives the data and processed with Visual Basic program to display and in the mobile phone data is received and displayed as a text message. This kind of health monitoring system can offer flexibility and cost saving options to both health care professionals and patients.

Design of a Wireless, Real Time Heart Rate Monitor Michelle Chislett, 2003

Heart Rate Measurement Using AVR Microcontroller Kazi Newaj Faisal, 2012. Heart rate measurement indicates the soundness of the human cardiovascular system. This book demonstrates a technique to measure the heart rate by sensing the change in blood volume in a finger artery while the heart is pumping the blood. It consists of a LED that transmits light through the fingertip of the subject. Each heart beat slightly alters the blood volume inside the fingertip which changes the intensity of illumination that can be detected by the LDR. The changing blood volume with heartbeat results in a train of pulses at the output of the LDR the magnitude of which is too small to be detected directly by a microcontroller. Therefore a two stage high gain active low pass filter is designed using two Operational Amplifiers OpAmps to filter and amplify the signal to appropriate voltage level so that the pulses can be counted by a microcontroller. The heart rate is displayed on a 3 digit seven segment display.

Unveiling the Power of Verbal Beauty: An Emotional Sojourn through **Microcontroller Based Wireless Heart Rate Telemonitor For**

In a world inundated with screens and the cacophony of fast conversation, the profound power and mental resonance of verbal beauty often disappear into obscurity, eclipsed by the constant assault of noise and distractions. However, situated within the lyrical pages of **Microcontroller Based Wireless Heart Rate Telemonitor For**, a fascinating perform of fictional splendor that impulses with natural thoughts, lies an unforgettable trip waiting to be embarked upon. Composed by a virtuoso wordsmith, this magical opus courses viewers on a psychological odyssey, delicately revealing the latent potential and profound influence embedded within the elaborate web of language. Within the heart-wrenching expanse of the evocative analysis, we shall embark upon an introspective exploration of the book is central subjects, dissect its interesting writing style, and immerse ourselves in the indelible effect it leaves upon the depths of readers souls.

Microcontroller Based Wireless Heart Rate Telemonitor For Introduction

In the digital age, access to information has become easier than ever before. The ability to download Microcontroller Based Wireless Heart Rate Telemonitor For has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Microcontroller Based Wireless Heart Rate Telemonitor For has opened up a world of possibilities. Downloading Microcontroller Based Wireless Heart Rate Telemonitor For provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Microcontroller Based Wireless Heart Rate Telemonitor For has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Microcontroller Based Wireless Heart Rate Telemonitor For. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Microcontroller Based Wireless Heart Rate Telemonitor For. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites

that prioritize the legal distribution of content. When downloading Microcontroller Based Wireless Heart Rate Telemonitor For, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Microcontroller Based Wireless Heart Rate Telemonitor For has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Microcontroller Based Wireless Heart Rate Telemonitor For Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer webbased readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Microcontroller Based Wireless Heart Rate Telemonitor For is one of the best book in our library for free trial. We provide copy of Microcontroller Based Wireless Heart Rate Telemonitor For in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Microcontroller Based Wireless Heart Rate Telemonitor For. Where to download Microcontroller Based Wireless Heart Rate Telemonitor For online for free? Are you looking for Microcontroller Based Wireless Heart Rate Telemonitor For PDF? This is definitely going to save you time and cash in something you should think about. If you trying to find then search around for online. Without a doubt there are numerous these available and many of them have the freedom. However without doubt you receive whatever you purchase. An alternate way to get ideas is always to check another Microcontroller Based Wireless Heart Rate Telemonitor For. This method for see exactly what may be included and adopt

these ideas to your book. This site will almost certainly help you save time and effort, money and stress. If you are looking for free books then you really should consider finding to assist you try this. Several of Microcontroller Based Wireless Heart Rate Telemonitor For are for sale to free while some are payable. If you arent sure if the books you would like to download works with for usage along with your computer, it is possible to download free trials. The free guides make it easy for someone to free access online library for download books to your device. You can get free download on free trial for lots of books categories. Our library is the biggest of these that have literally hundreds of thousands of different products categories represented. You will also see that there are specific sites catered to different product types or categories, brands or niches related with Microcontroller Based Wireless Heart Rate Telemonitor For. So depending on what exactly you are searching, you will be able to choose e books to suit your own need. Need to access completely for Campbell Biology Seventh Edition book? Access Ebook without any digging. And by having access to our ebook online or by storing it on your computer, you have convenient answers with Microcontroller Based Wireless Heart Rate Telemonitor For To get started finding Microcontroller Based Wireless Heart Rate Telemonitor For, you are right to find our website which has a comprehensive collection of books online. Our library is the biggest of these that have literally hundreds of thousands of different products represented. You will also see that there are specific sites catered to different categories or niches related with Microcontroller Based Wireless Heart Rate Telemonitor For So depending on what exactly you are searching, you will be able tochoose ebook to suit your own need. Thank you for reading Microcontroller Based Wireless Heart Rate Telemonitor For. Maybe you have knowledge that, people have search numerous times for their favorite readings like this Microcontroller Based Wireless Heart Rate Telemonitor For, but end up in harmful downloads. Rather than reading a good book with a cup of coffee in the afternoon, instead they juggled with some harmful bugs inside their laptop. Microcontroller Based Wireless Heart Rate Telemonitor For is available in our book collection an online access to it is set as public so you can download it instantly. Our digital library spans in multiple locations, allowing you to get the most less latency time to download any of our books like this one. Merely said, Microcontroller Based Wireless Heart Rate Telemonitor For is universally compatible with any devices to read.
