

## Introduction to Political theory:-

→ Political Science:-

→ The terms 'polity', 'politics' and 'political science' are derived from the Greek word 'polis' which means city state.

City state implies relatively small communities which were separated by geographical barriers but shared a common culture & ideology and follow a similar rule.

Political:- When an organisation is desired to regulate the whole community.

→ An organisation where rules are made and decisions are taken for the whole community and authority is exercised over whole community.

⇒ related to public, as distinguished from private or something applicable to a limited number of persons.

→ Sheldon S. Wilson Holin, in his 'politics and vision 1960' has beautifully summed up the characteristics of 'political' as:

⇒ The political institutions are concerned with what is 'common' to the whole community. Certain functions, such as national defense, internal order, the dispensing of justice and economic regulation, has been declared the primary responsibility of political institutions.

⇒ According to Aristotle: Man by nature is a political animal. (Aristotle is regarded as father of P. Science)

⇒ Politics:- Set of activities that are associated with making decisions in groups or other forms of power relations among individuals such as distribution of sources.
