Mediation in state courts Flávia Maria Aires Freire Allemão, 2021-10-29 The large caseloads to be tried in the courts and the dissatisfaction of jurisdictions with the judgments are the main reasons for the application of mediation in the courts The culture of litigation and the Civil Law system applied in Brazil are driving factors in order to arise more lawsuits given to a greater possibility of different decisions for similar situations in contrast to the Common Law applied in almost all of the United States where the citizen is more cautious when filing lawsuits because it is more difficult to reverse a precedent Given the need to change this situation a movement began in Brazil to encourage agreements between the parties in the process with the National Council of Justice having issued the Resolution No 125 2010 instituting mediation and later the provision of such institute by the new Code of Civil Procedure of 2015 The previous Code of Civil Procedure from 1973 already regulated conciliation although it does not have the same effectiveness as mediation in the resolution of conflicts in a more definitive way especially in demands whose conflict parties have a continued relationship among themselves such as those involving Family Law for example Indeed among the different types of alternative methods of conflict resolution mediation is within the best results So it is of fundamental importance the comparative study of the mediation in Brazil and the United States analyzing the participants of mediation the types of mediation how it is applied in practice in each country the advantages and disadvantages and thinking how to improve the institute of mediation in both countries considering the differences and similarities between them

Constraint-based Reasoning Eugene C. Freuder, Alan K. Mackworth, 1994 Constraint based reasoning is an important area of automated reasoning in artificial intelligence with many applications These include configuration and design problems planning and scheduling temporal and spatial reasoning defeasible and causal reasoning machine vision and language understanding qualitative and diagnostic reasoning and expert systems Constraint Based Reasoning presents current work in the field at several levels theory algorithms languages applications and hardware Constraint based reasoning has connections to a wide variety of fields including formal logic graph theory relational databases combinatorial algorithms operations research neural networks truth maintenance and logic programming The ideal of describing a problem domain in natural declarative terms and then letting general deductive mechanisms synthesize individual solutions has to some extent been realized and even embodied in programming languages Contents Introduction E C Freuder A K Mackworth The Logic of Constraint Satisfaction A K Mackworth Partial Constraint Satisfaction E C Freuder R J Wallace Constraint Reasoning Based on Interval Arithmetic The Tolerance Propagation Approach E Hyvonen Constraint Satisfaction Using Constraint Logic Programming P Van Hentenryck H Simonis M Dinçbas Minimizing Conflicts A Heuristic

Alternative Dispute Resolution in Business Lucille M. Ponte,Thomas D. Cavenagh,1999 ALTERNATIVE DISPUTE RESOLUTION IN BUSINESS provides an overview of innovative ADR methods that have been implemented to deal with domestic and international business disputes This text takes a managerial approach that provides information on various aspects of ADR such as negotiation mediation arbitration to help managers make educated decisions when faced with choices of trial or ADR Paths To Peace Richard Smoke,Willis W Harman,2019-06-26 A primer on thinking about peace in a nuclear age this book describes the kinds of peace efforts that have been tried and those that might be tried from the highest echelons of government policymaking to the grassroots level of individual endeavour Its primary goal is to enable the reader to understand ways of eliminating the threat of nuclear war and to be empowered to take action The book describes and compares nine basic methods people have used to achieve peace ranging from such conventional approaches as the theories of deterrence and balance of power to more unconventional strategies such as nonviolent resistance Essentially all significant ideas for achieving and maintaining international peace fall into one of these nine categories or combine features from several Many have been tried but all clearly have been found wanting Yet the authors tone is one of optimism as they explore some of the major changes of the past quarter century They contend that these changes alter the balance of advantages and disadvantages among the various paths to peace so that what seemed partially workable in the past may not be appropriate to the present and what seemed totally impractical in the past might have a chance of working today The book concludes with a scenario that may make a stable peace possible in the foreseeable future Collaborative Approaches to Decision
