Research-Based Learning: Case Studies from Maastricht University Ellen Bastiaens, Jonathan van Tilburg, Jeroen van Merriënboer, 2017-03-20 This book describes lessons learned from the implementation of research based learning at Maastricht University Well known for its problem based learning PBL educational model Maastricht University implemented research based learning RBL as a new educational concept in addition to PBL around 2009 The model has taken the shape of an excellence programme offering third year bachelor students an opportunity to conduct academic research together with academic staff The introduction of

the research based learning concept into the programmes of all Maastricht University's faculties has resulted in a range of RBL models that vary to fit the various disciplines and programmes offered by the faculties. The book first presents theoretical models and a description of the concepts of research based learning and undergraduate research UGR. Next by means of case studies it describes the formulas developed to suit the various programmes, the challenges encountered, the initial reservations on the part of the staff, the limitations caused by regulations and demands of the curricula, as well as the successes and results of the excellence programme. The disciplines described in the case studies include psychology and neuroscience, knowledge engineering, social and cultural sciences, law and business, and economics. **Understanding**

Roberto Bolaño Ricardo Gutiérrez-Mouat, 2016-11-21 An examination of the novels, short story collections, and poetry of the Latin American author. In *Understanding Roberto Bolaño*, Ricardo Gutiérrez-Mouat offers a comprehensive analysis of this critically acclaimed Chilean poet and novelist whose work brought global attention to Latin American literature in the 1960s, unseen since the rise of García Márquez and magic realism. Best known for *The Savage Detectives*, winner of the Rómulo Gallegos Prize, the novella *By Night in Chile*, and the posthumously published novel *2666*, winner of the National Book Critics Circle Award, Bolaño died in 2003 just as his reputation was becoming established. After a brief biographical sketch, Gutiérrez-Mouat chronologically contextualizes literary interpretations of Bolaño's work in terms of his life, cultural background, and political ideals. Gutiérrez-Mouat explains Bolaño's work to an English speaking audience, including his relatively neglected poetry, and conveys a sense of where Bolaño fits in the Latin American tradition. Since his death, eleven novels, four short story collections, and three poetry collections have been translated into English. The afterword addresses Bolaño's status as a Latin American writer, as the former literary editor of *El País* claimed neither magical realist nor baroque nor localist, but creator of an imaginary extraterritorial mirror of Latin America, more as a kind of state of mind than a specific place.
