Thompson,2007 In Unsettling Absences Eric Thompson argues that urbanism is a cultural force unbound from the city and is a pervasive presence in the Malaysian countryside Transported to rural communities urbanism has motivated migration transformed the social lives of rural inhabitants and created a deep ambivalence about personal identity This has left rural Malays feeling out of place in both the city and the village Kuala Lumpur epitomises modernity but rural Malays who move there are often marginalised in squatter settlements on its periphery The kampung symbolises home and the locus of Malay identity but schoolbooks and television have projected urbanism that marks rural life as backwards and marginal in a forward looking nation into the kampung The book challenges city bound urban studies by locating urbanism in a wider world that extends outside of the city and shows the conflicted realities of rural dwellers in an overwhelmingly urban world As others have challenged the meaning of modernity Thompson challenges the meaning of urban while still recognising the powerful effects of an ideology of urbanism Unsettling Absences is a call to take seriously place based identities and cultural geographies in a world where the urban rural divide is dissolving in practice but in cultural terms remains as powerful as ever Competencies of Managers and Service Excellence in Military Hospitals Professor Emeritus Dr Syed Mohamed Aljunid,Dr Junaidah Kamarruddin,2023-06-06 Excellence in service is needed in the Military Hospitals in Malaysia to ensure the best and the most effective services are delivered One of the factors that contribute to the provision of excellent services is the presence of competent managers In this book we report the outcome of a study aimed to determine the level of service excellence among managers and the factors influencing it in five Military Hospitals under the Ministry of Defence Malaysia A cross sectional study was conducted using self administered questionnaires distributed to Military and Non Military

managers with different demographic backgrounds and service characteristics The questionnaires consist of six components the background of the respondents the level of service excellence skills knowledge of the Blue Ocean Strategy BOS leadership style and organisational compliance By using the Structural Equation Model findings of the study showed that all independent variables i e skills knowledge on BOS leadership style and organisational compliance are significantly related to service excellence Using Stepwise Multiple Linear Regression it was discovered that managers in the lower grades as well as Non Military managers demonstrated significant service excellence In conclusion the service excellence of managers in Military Hospitals is strongly influenced by their competencies Military Hospitals administration should focus into the needs for training and suitable courses for Military managers in senior position to enhance their competencies
