The Black Swan Mercedes Lackey, 2000-05-01 After his wife's untimely death, a powerful sorcerer dedicates his life to seeking revenge against all womankind. He turns his captives into beautiful swans who briefly regain human form by the fleeting light of the moon. Only Odette, noblest of the enchanted flock, has the courage to confront her captor. But can she gain the allies she needs to free herself and the other swan maidens from their magical slavery? A monumental tale of loyalty and betrayal, of magic, good and evil, of love, both carnal and pure, and of the duality of human nature. *The Black Swan* is a rich tapestry which is sure to become an all-time masterpiece of fantasy.

Special attention is paid to discographies and bibliographies.

The Naturalist in Australia William Saville-Kent, 1897

Educated at King's College London, the naturalist and marine biologist William Saville Kent (1845-1908) went on to work at the British Museum and in aquariums at Brighton, Manchester, and Westminster. He spent many years in Australia as a fisheries expert, and during this time he made extensive surveys of the natural world. The present work, first published in 1897, was intended to give a non-scientific audience a glimpse of the fantastic array of wildlife in Australia. The author discusses the many varieties of birds, lizards, fish, and other sea life; insects; an entire chapter is devoted to termites and vegetation. He was also able to take advantage of the photographic technology of the time and include around fifty collotype images which complement the many other illustrations of the plants and animals. He writes about providing a vivid overview of the natural world in late nineteenth-century Australia.
