the Southern Baptist Convention and among the top one hundred largest churches in the US had begun their service with the song Highway to Hell by hard rock band AC DC They had brazenly crossed the sacred secular musical divide on the most important Sunday of the year and commentary abounded on the value of such a step Many were offended at the desecration of such a holy day deriding Newspring as the theater of the absurd Others cheered Newspring's engagement with the culture and suggested that music could be used to convert non Christians No mere debate over stylistic preferences many expressed that foundational aspects of evangelical identity were at stake While many books have been written about religious music that utilizes popular music styles a k a contemporary Christian music there has yet to be a scholarly treatment of how and why popular secular music is utilized by churches This book addresses that lacuna by examining this emerging trend in evangelical and emerging churches in America What is the motivation behind using music that seemingly has no connection to Christian theology values or themes such as music by Katy Perry AC DC or Van Halen and what can we learn about post denominational evangelical churches in America by uncovering these motives In this book April Stace uncovers several themes from an ethnographic study of these churches the increasingly porous boundary between the sacred and the secular the importance placed on authenticity in contemporary American culture how evangelicals are responding to what they perceive is an increasingly secular society the turn to the subject of contemporary culture the desire to leave a space for expression of doubt in the worship service without fully authorizing that doubt and the individualization of the construction of religious identity in the modern era
