### **Transformation of conventional Banking.**

**Opportunities and risks of Fintech companies in Asset Management** Gleb Romanchuk, 2019-05-03 Master's Thesis from the year 2019 in the subject Business economics Banking Stock Exchanges Insurance Accounting grade 1-3 Berlin School of Economics and Law language English abstract The purpose of this work was to find out whether Fintechs are able to compete with Banks in the field of Asset Management Companies providing Robo Advisory services are considered to be the banks of the future Several interviews with companies working in this field have been conducted to investigate if the algorithms are prepared for the next financial crash This work contains 7 chapters starting with the motivation and research question Secondly the general situation on the market will be described including the changes of customer behavior This serves the purpose to give an understanding about the current market conditions Thirdly the banking sector will be described considering definitions and regulations In this work the focus will be on the German market therefore consumer behavior and details about the German retail banking industry are relevant Subsequently chapter 4 deals with asset management and the new trends in the industry Chapter 5 describes the development of the fintech industry Definitions and regulations of the fintech companies are part of this chapter In chapter 6 the scientific investigation will be conducted and presented The results will show how stable the new technologies are in order to give an outlook for the future in the next chapter Prospects for the future of retail banking and especially asset management will be mentioned in chapter 7 General current trends and forecasts are also part of this chapter Since only limited literature is available about the fintech industry and especially robo advisory the investigation part includes a qualitative approach with interviews that have been conducted with qualified specialists that work or research in the robo advisory industry The question of whether and how the robo advisors will survive the next financial crisis is topic of the interviews There has been no financial crisis that might have caused unforeseen problems for the systems ever since the creation of robo advisory Thus it is unknown how those technologies will react to chaotic market situations The idea was to ask companies to what extent they are prepared for a financial crisis The findings of this investigation will deal with the possible future outline of those fintechs providing algorithm based asset management The question about the security framework has been answered with a view to examining the future development of the robo advisory industry

**Nothing But Net: 10 Timeless Stock-Picking Lessons from One of Wall Street's Top Tech Analysts** Mark Mahaney, 2021-11-09 Find the winners avoid the losers and build a solid Tech portfolio for the long run with proven methods from legendary analyst Mark Mahaney The Tech industry is the stock market's hottest most profitable sector but it can be a roller coaster ride Companies with great ideas can end up going nowhere and some that dominate today will be sold at fire sale prices in five years Sure things can become sore things very rapidly Nothing But Net provides the knowledge and insights you need to understand what's really hot to know what's not and to outperform other investors consistently and decisively Famous for his smart savvy and unique approach to Tech stock

investing Mark Mahaney provides his 10 proven rules for succeeding as a long term Tech stock investor explaining everything he s learned during almost 25 years of analyzing internet stocks including Why revenue growth and customer metrics not earnings are what matter most to Tech investors How to invest not trade in the great growth opportunities that lie ahead How to determine when high valuations are a warning sign and when they signal an opportunity I ve watched the rise of some of the leading companies of today Facebook Amazon Netflix Google and the fall of some of the leading companies of yesterday Yahoo eBay and AOL Mahaney writes F iguring out which companies really are going to be dominant franchises is an extremely hard thing to do But those who accomplished this were arguably able to generate some of the best portfolio returns in the stock market over the past generation Nothing But Net provides powerful advice for the next two decades lessons you can start applying today and use for years to come Social Customer Experience Dave Evans,Joe Cothrel,2014-04-21 This book focuses on three main challenges faced by any company understanding the social landscape assessing current efforts and implementing a complete strategy **The Wall Street Journal** ,2009 **Hastings Communications and Entertainment Law Journal (Comm/Ent)** ,2016 *EIB-information* ,2012 **Marketing** ,2009

**Rules on Digital Trade in the Light of World Trade Organization Agreements** Asif Khan,2023-12-14 Doctoral Thesis Dissertation from the year 2023 in the subject Business economics Trade and Distribution language English abstract This doctoral dissertation deals with rules on digital trade in the light of WTO agreements Digital trade has brought about profound changes in the international trade framework Traditional trade which primarily involved the exchange of physical goods has now expanded to encompass a wide range of digitally delivered services online transactions and data flows This transformation has been driven by advancements in technology and the increasing interconnectedness of the global economy The digital economy encompasses various digital technologies and platforms and has become a significant driver of economic growth and innovation It allows businesses to reach international markets more quickly and efficiently transcending geographical barriers The internet mobile devices cloud computing and artificial intelligence have facilitated this digital transformation These technologies enable seamless communication data storage and processing automation and personalised services revolutionising how businesses operate and engage in international trade Digital trade has created new opportunities for businesses of all sizes Small and medium sized enterprises have benefited from the ability to access global markets through digital platforms and e commerce These platforms provide a means for Small and medium sized enterprises to connect with potential customers worldwide establish their presence and market their products and services without needing a physical presence in foreign markets This has lowered entry barriers and empowered Small and medium sized enterprises to participate in global value chains expanding their reach and contributing to economic growth One of the notable developments in the digital trade era is the rise of platform based businesses These platforms such as e commerce marketplaces ride sharing services and online payment systems act as intermediaries connecting buyers and sellers across

borders They facilitate transactions provide infrastructure and services and enable businesses to expand their customer base globally Platforms have become influential players in international trade shaping market dynamics and redefining traditional trading system

**The economic impact of FinTech companies on the traditional banking sector and possible future scenarios** Malik Dakdaki,2017-11-07 Bachelor Thesis from the year 2017 in the subject Business economics Accounting and Taxes grade 1 3 University of applied sciences Frankfurt a M FOM language English abstract The beginning of the digital revolution at the turn of the millennium has ushered in a structural change in many sectors Due to the increased use of modern information and communication technologies ICT several sectors have already experienced existential economic implications This is especially evident in the music media and publishing industries For example music is not only purchased on CDs from local retail stores but is also increasingly consumed via the Internet through streaming services such as Spotify Videos store rentals compete with the comfortable video on demand services available in customers own homes The Internet as a medium for information and consumption for products and services has established itself as a faster more comfortable and more efficient channel in comparison to traditional sales channels Stationary retail stores were also not spared from digital disruption The market research institute Gesellschaft f r Konsumforschung GfK predicts a doubling of the online share of retail sales from currently to 20% by the year 2025 At the same time new and innovative market participants known as financial technology or FinTech companies are edging into the financial sector and trying to gain market share from established banks through customer friendly products and services Nevertheless the banks do not seem to recognize the seriousness of the situation and therefore are reluctant to adapt to the new situation However experience has shown that ignorance of an industry s digitization has already led to the fall of large and established companies As a well known example in the technology industry Kodak is often referred to in this context The company s reaction to the digital disruption took place too late whereas other companies had already recognized the trend towards digital photography at an earlier stage and prepared corresponding products As a result Kodak plummeted from the top of the photography technology industry Evidence of ongoing digital disruption of the financial services sector has already been provided in the form of a new type of bank the direct bank which was first introduced in the early 1990s FinTech companies seek to take advantage of this success and gain customers and market share by offering innovative solutions for financial products and services

**The Implications of new Technology, particularly Artificial intelligence (AI) for International Politics** Malam Wasai,2023-09-18 Submitted Assignment from the year 2023 in the subject Politics General and Theories of International Politics language English abstract Greater scrutiny is necessary because AI will have a significant impact on international relations such as putting new topics on the international agenda challenging geostrategic relations serving as a tool for diplomats and negotiators and creating new opportunities and concerns about protecting human rights Scholars and diplomats have found it helpful to think about the different things that affect international relations by breaking them down

into three levels of analysis individual state and international State level analysis examines the foreign policy behavior of states in terms of state characteristics For example some scholars say that all democracies behave a certain way they don't fight with other democracies Artificial intelligence impact governance As AI continues to evolve and permeate various aspects of our lives its implications for AI and how does it impact businesses AI artificial intelligence refers to machines that can perceive intelligence synthesize and infer information It is the science and engineering of intelligent machines that can mimic human intelligence to perform tasks and then on the information they collect improve themselves based AI is designed to significantly enhance human capabilities and contributions making it a valuable business asset **Contemporary**

**Business** Louis E. Boone, David L. Kurtz, Daniel Pfaltzgraf, 2024-08-14 Student friendly engaging and accessible Contemporary Business 20e equips students with the skills to assess and solve today's global business challenges and succeed in a fast paced environment Designed to drive interest in business our newest edition offers a comprehensive approach to the material including a variety of resources to support today's students Its modern approach wealth of videos relevant and up to date content and career readiness resources keep your course current and engaging **Critical Success Factors Driving Customer Adoption of Cloud Gaming Platforms** Timo Grünzinger, 2024-03-04 Master's Thesis from the year 2021 in the subject Business economics Information Management grade 19 20 language English abstract This work project aims to identify factors that have an impact on customer adoption of cloud gaming platforms Based on the Unified Theory of Acceptance and Use of Technology combined with the concept of Flow as well as further amendments relevant for hedonic information systems a structural equation model was developed and empirically tested on a convenience sample of gaming community members Besides the significance of price value on user acceptance the empirical results suggest that social influence together with a flow state associated with the hedonic motivation of cloud gaming play a critical role in customer adoption
