[Building a New Table](#) Brittany Lewis, 2026-05-05 A vital guide to centering community knowledge to generate effective solutions to inequality When organizations take on social problems from school reform to conservation to healthcare disparities community members are sometimes invited to the table to share their insights But if the table has already been set with institutional assumptions about the issue at hand the solutions that emerge often have little to do with the people and places they are meant to help When this is the case inclusion can only go so far as Dr Brittany Lewis argues it's time to build a new table Drawing on her

work as a community researcher and nonprofit consultant Dr Lewis developed the Equity in Action EIA model as a framework for closing the gaps between communities researchers and institutions By centering the knowledge of the community members who ostensibly benefit from the work of various organizations EIA makes research questions more relevant and the research process more targeted getting at the roots of social inequality to find sustainable impactful solutions In Building a New Table Dr Lewis guides readers through the steps of EIA assessing the landscape building the community action council co developing a research approach data collection community review and identifying solutions Along the way she highlights the values imbued in each step and the skills needed for success as well as how the model can be adapted for different organizations Practical and hands on Building a New Table explores each phase of the Equity in Action model through case studies featuring commentary from organizational leaders and staff who have used it to reshape their engagement with the communities they serve Demonstrating how to ground solutions in lessons from lived experience this book teaches how authentic community engagement and community driven research creates reciprocal generative relationships that can enact real systemic change Retail e book files for this title are screen reader friendly with images accompanied by short alt text and or extended descriptions

Every Screen on the Planet Emily Baker-White,2025-09-30 The story of the most effective attention algorithm ever invented and the superpower struggle to control it Every Screen on the Planet is the first major book on one of the most dramatic business stories of our time Touching on politics finance data and technology the struggle over TikTok has enormous implications for our information landscape and the technological cold war between the United States and China Emily Baker White s engrossing narrative charts TikTok s rise from obscurity into the world s most valuable startup led by its ambitious founder Zhang Yiming arguably the father of the modern recommendation algorithm Zhang s products reshaped the global internet from a place where you searched for information to one where information came to you TikTok seemed to know its users in an almost spooky way

provoking wonder and delight People were hooked We intend to become ubiquitous a new hire training video said to put TikTok on every screen on the planet But virtually everything about TikTok s users their interests locations and even their unspoken desires was accessible to staff in Beijing After Baker White a Harvard trained lawyer and investigative reporter revealed that Chinese engineers could access Americans private information a team of employees used the app to track her location and attempt to expose whistleblowers This incident triggered an ongoing criminal investigation and escalated the US government s fight against Chinese tech TikTok was the first Chinese app to become a US juggernaut and lawmakers soon recognized its potential for surveillance and propaganda and the threat it might pose in the hands of their rivals Yet even as hawks in Congress gained support to ban the app the White House was secretly negotiating for unprecedented control over its information stream In 2025 when President Donald Trump declined to enforce the so called ban law TikTok seemed to complete a miraculous corporate escape It retained its influence profits and power but now operated at the pleasure of two strongmen China s Xi Jinping and Trump himself

Critical Perspectives on Leadership Mark Learmonth, Kevin Morrell,2019-05-01 Within contemporary culture leadership is seen in ways that appeal to celebrated societal values and norms As a result it is becoming difficult to use the language of leadership without at the same time

assuming its essentially positive intrinsically affirmative nature Within organizations routinely referring to bosses as leaders has therefore become both a symptom and a cause of a deep largely unexamined new conceptual architecture This architecture underpins how we think about authority and power at work Capitalism and its turbo charged offspring neo liberalism have effectively captured leader and leadership to serve their own purposes In other words organizational leadership today is so often a particular kind of insidious conservatism dressed up in radical adjectives This book makes visible the work that the language of leadership does in perpetuating fictions that are useful for bosses of work organizations We do this so that we and anyone who shares similar discomforts can make a start in unravelling the fiction We contend that even if our views are contrary to the vast and powerful leadership industry our basic arguments rest on things that are plain and evident for all to see *Critical Perspectives on Leadership The Language of Corporate Power* will be key reading for students academics and practitioners in the disciplines of Leadership Organizational Studies Critical Management Studies Sociology and the related disciplines *Sound Advice* Rhian Jones, Lucy Heyman, 2024-11-14 Are you interested in learning how to cultivate sustainable success in the popular music industry whilst prioritising your health If so this book is for you
