Assault on the Small Screen Molly Ann Magestro, 2015-07-22 Over the last few decades television programs have attempted to depict some of the more troubling elements of society with a more conscientious approach. Issues that networks were once reluctant to broadcast such as sexual abuse, sexual assault, and rape have become frequent plot points for many popular shows. Narratives that portray important social issues could potentially affect the ways individual viewers understand such incidents in the real world, so it is important to pay close and critical attention to the stories about rape that are broadcast to mass audiences. In Assault on the Small Screen: Representations of Sexual Violence on Prime Time Television Dramas, Molly Ann Magestro examines the ways in which police and legal dramas on network and cable channels portray rape narratives. In this discussion, the author focuses on eight successful shows: *NCIS*, *Criminal Minds*, *CSI*, *The Closer*, *Rizzoli*, *Isles*, *Dexter*, *Law and Order: Special Victims Unit*, and *The Good Wife*. Each chapter offers a close reading and analysis of how one or more of the shows represent rape narratives and rape victims in ways that more or less address feminist understandings of rape and rape culture. The arguments in each chapter explore the specific narrative content of individual series rather than a single critical approach. Each of the eight shows considered within the book is the focus of its own argument, as the representations of rape narratives on television are as complex as issues surrounding rape can be in the real world. In a time when rape narratives are frequently making headlines, taking the time to examine and understand the messages broadcast by a medium as ubiquitous as television serves an important role in developing an understanding of rape culture. A significant step toward this understanding, Assault on the Small Screen will be of interest to scholars of film and television, media studies, gender studies, criminology, and sociology.

Film Studies Glyn Davis, Kay Dickinson, Lisa Patti, Amy Villarejo, 2015-02-20 Film Studies: A Global Introduction reroutes film studies from its Euro-American focus and canon in order to introduce students to a medium that has always been global but has become differently and insistently so in the digital age. Glyn Davis, Kay Dickinson, Lisa Patti, and Amy Villarejo's approach encourages readers to think about film holistically by looking beyond the textual analysis of key films. In contrast, it engages with other vital areas such as financing, labour, marketing, distribution, exhibition, preservation, and politics, reflecting contemporary aspects of cinema production and consumption worldwide. Key features of the book include clear definitions of the key terms at the foundation of film studies; coverage of the work of key thinkers explained in their social and historical context; a broad range of relevant case studies that reflect the book's approach to global cinema, from Italian white telephone films to Mexican wrestling films; innovative and flexible exercises to help readers enhance their understanding of the histories, theories, and examples introduced in each chapter; an extensive interlude introducing readers to formal analysis through the careful explication and application of key terms; a detailed discussion of strategies for writing about cinema. Film Studies: A Global Introduction will appeal to students studying film today and aspiring to work in the industry, as well as those eager to understand the world of images and screens.
