Reading Comprehension Update:

Training Readers and Writers for a Multimodal and Multimedia Society: Cognitive Aspects Ester

Trigo-Ibanez, Inmaculada Clotilde Santos Diaz, Marcela Jarpa, 2024-02-07 Contemporary societies have been advancing gradually towards the construction of a model of a literate population. Significant efforts have been made so that most citizens can access various sources today using their reading and writing abilities but are we really prepared to face the information age? Is information literacy being promoted from schools? Are individual capabilities being considered? Do we have a true critical literacy? This article collection aims to show an overview of the most recent research ranging from the individual to the collective from the subject's competencies and their beliefs to the way to develop them from school. There is room in this Research Topic for investigations belonging to the linguistic, psychological, and didactic field. This Research Topic aims to address a pressing problem in contemporary world societies. It is proposed to offer various contributions related to critical literacy in general and reading and writing. In this sense, research that addresses analog and digital reading/writing processes, academic literacy, and the use of resources such as non-fiction illustrated books to develop critical thinking will be welcome. But also, and in a very important way, the cognitive processes of the subject will be considered not only to deal with access to information but also in the construction of their mental lexicon, an issue that offers the vision of the world of those who are immersed in literacy and in the post-truth era.

Essentials of KTEA-3 and WIAT-III Assessment Kristina C.

Breaux, Elizabeth O. Lichtenberger, 2016-10-07 Written by expert authors Kristina Breaux and Elizabeth Lichtenberger, *Essentials of KTEA 3 and WIAT III Assessment* offers up-to-date comprehensive step-by-step instruction in the accurate and effective use of the newest editions of the Kaufman Test of Educational Achievement (KTEA 3 Comprehensive Form, KTEA 3 Brief Form) and the Wechsler Individual Achievement Test (WIAT III). Designed to provide in-depth information in an easy-to-use reference format, the book provides guidelines and tips for administration, scoring, and interpretation that go beyond the information provided in the test manuals. A complete guide is included for digital administration and scoring using Q-global interactive automated scoring, as well as global and hand scoring. *Essentials of KTEA 3 and WIAT III Assessment* makes score interpretation easier by explaining what each score measures and the implications of a high or low score. Learn how to increase the diagnostic utility of the KTEA 3 and WIAT III by taking full advantage of their capabilities for error analysis, qualitative observations, and progress monitoring, and by pairing the results with measures of cognitive ability such as the WISC-V and KABC-II. Clinicians will find a helpful discussion of how these tests may be interpreted using either a CHC or neuropsychological approach to assessment. Case studies illustrate the use of these tests to respond to various referral concerns. Annotations within each case report provide a window into the mind of the examiner throughout the assessment process. This book provides a depth and breadth of understanding that is appropriate for all assessment professionals, regardless of their level of training or experience. Extensive illustrations, call-out boxes, and Test Yourself questions help
