Reading Specialists and Literacy Coaches in the Real World Brenda A. Shearer, DeBorah A. Carr, MaryEllen Vogt, 2018-07-23 Now more than ever the roles and responsibilities of today's literacy professionals are expanding. Many recent developments require a closer look at the changing careers of reading specialists, coaches, and administrators, leading to an emphasis on increased collaboration and coaching integration of standards and student improvement initiatives. Both scholarly and practical, Reading Specialists and Literacy Coaches in the Real World provides the support and guidance both literacy and content area teachers need. The learning goals and outcomes in each chapter are aligned with ILA's Standards for the Preparation of Literacy Professionals 2017, providing opportunities for group inquiry and new perspectives on professional learning. The authors examine the historical, political, and social forces that shape evidence-based practice and incorporate significant developments in intervention, assessment, and adolescent literacy. Their impact on instruction and the needs of students are studied in conjunction with RtI, MTSS, progress monitoring, and differentiation. Instructional technologies related to twenty-first-century literacies, updated information about effective academic language instruction for English learners, and a moral imperative for fostering equity, social justice, and global perspectives. The Fourth Edition also provides Resource Materials to support the text, giving it a great deal of flexibility to explore projects for portfolios and self-assessment. In the real world, as learners among learners, literacy professionals use their experiences and voices for advocacy to help prepare students for success in their lives and careers.

It Takes A Village Jean Rattigan-Rohr, 2012-09-05 It Takes a Village: A Collaborative Assault on the Struggling Reader Dilemma has a wellspring of incredibly useful information for teacher educators, pre-service, and in-service teachers alike. It shows quite clearly that preparing effective reading teachers while addressing issues related to a reader who struggles, b) parental inclusion, and c) the inclusion of the wider community can be done quite successfully. This book puts readers in touch with compelling insights into the importance of parental inclusion in the educational efforts of their children. Additionally, it provides a counter-narrative to the belief by many that parents, and in particular racial and ethnic minority parents, do not participate with their children in academic endeavors. The text also focuses on key aspects of teacher preparation, especially as it relates to reading instruction. The author provides a wonderful variety of step-by-step approaches for how to seamlessly transition teacher reading instruction from the lecture hall to the village practice sites. The book is well-written with the authentic voices of parents, students, and pre-service teachers. This book is an excellent contribution to the literature concerning issues related to struggling readers, parental inclusion, and community involvement.

Reading Randomised Controlled Trials Robert Savage, Amy Fox, Anne Dawson, Helen Gray, Clare Huxley, 2025-03-03
In early 2021/22 the Flexible Phonics reading intervention a large scale randomised controlled trial took place in 118 schools in England and involved nearly 3 000 children This study aimed to provide valuable insights into the success of largely school based education trials The Flexible Phonics trial proved to be not only an important experiment in improving children s literacy but a case study in which the methodology of single randomised controlled trials in education can be considered Reading Randomised Controlled Trials investigates the complexities of conducting randomised controlled trials in the field of education and how they can be seen as a cultural activity The book emphasises the human operations decision making and actions that drive such trials which are often overlooked in published reports Through the case study of Flexible Phonics the book highlights the key differences between scaled educational trials and other types of trials such as pharmaceutical trials The additional focus on early childhood literacy is of significant educational importance particularly in the context of UK school partial closures in 2020 and 2021 during the Covid 19 pandemic Reading Randomised Controlled Trials is ultimately a unique resource on the implementation of randomised controlled trials in authentic school contexts and for the sustained improvement of practice in education *Teaching Young Children to Read* Dolores Durkin, 1972 **The Reading Teacher**, 1979 *The Word Method of Teaching Phonics* Anna Dorothea Cordts, 1929 Word Mastery Florence Akin, 1913
