*Effective Cover Letters* Killough,2009 Most thorough and useful guide for cover letters This is the best book on the market for writing cover letters In addition to giving many articulate cover letters to peruse the book has sections with examples of introductory paragraphs middle sections and closing paragraphs Also the book goes over the many different kinds of cover letters that exist and explains which type is best for each job situation Oh and for those people who are recent graduates or don t have that much experience there are whole chapters for you with examples of very strong well written letters This is particularly nice because most cover letter examples in other books are strong letters because of the strong candidate not because the letter is extremely well written There are also chapters for the professional with years of experience This is the only book you need for writing cover letters Do not waste your money on other guides that are not as complete

Designed as the comprehensive guide to cover letter preparation, the 272-page book shows examples of exciting and door-opening cover letters. The main section of the book shows cover letters by field and industry. For example, job hunters in the accounting field will find examples of cover letters used to blow doors open in the accounting, banking, and financial community. From aviation to computer operations to management to sales to transportation, cover letters tailored to specific fields are illustrated, which can be used as models or templates for those involved in a job hunt. But what if a job hunter is changing careers or doesn't need a cover letter targeting a specific field or functional area? There's a section showing examples of all-purpose cover letters, career change cover letters, cover letters for entrepreneurs, and cover letters for those seeking their first job. For those seeking advice on how to respond to ads, how to handle questions about salary requirements, how to request consideration for multiple job openings in the organization, and how to write letters for special situations, there's a section entitled *Sixteen Commonly Asked Questions About Cover Letters and Job Hunting* — **Top Notch**
