Underwriting Services and the New Issues Market George J. Papaioannou, Ahmet K. Karagozoglu, 2017-07-27

Underwriting Services and the New Issues Market integrates practice theory and evidence from the global underwriting industry to present a comprehensive description and analysis of underwriting practices. After covering the regulation and mechanics of the underwriting process, it considers economic topics such as underwriting costs and compensation, the pricing of new issues, the stock price, and operating performance of issuing firms. The book also covers the evaluation of new issue decisions and an analysis of the many choices issuers face in structuring new issues. Unlike other books, it systematically develops a critical perspective about underwriting practices both in the U.S. and international markets, and with a level of detail unavailable elsewhere. It also provides an approach that reveals how financial institutions deliver underwriting services. *Underwriting Services and the New Issues Market* delivers an innovative and long overdue look at security issuance. Foreword by Frank Fabozzi. Covers underwriting contracts and arrangements on pricing and costs. Focuses on the financial consequences of the issuance decision for the firm. Describes and evaluates decisions regarding the features and structure of new security offerings.

Strategic Financial Management Casebook Rajesh Kumar, 2017-01-05. *Strategic Financial Management Casebook* strategically uses integrative case studies, cases that do not emphasize specific subjects such as capital budgeting or value-based management, to provide a framework for understanding strategic financial management. By featuring holistic presentations, the book puts readers into the shoes of those responsible for the world's largest wealth creators. It covers strategies of growth, mergers, and acquisitions; financial performance analysis over the past decade; wealth created in terms of stock returns since its listing in stock market; investment and financial decisions; cost of capital and corporate valuation. In addition, the casebook also discusses corporate restructuring activities undertaken by each company. Each chapter follows a template to facilitate learning, and each features an Excel-based case analysis worksheet that includes a complete data set for financial analysis and valuation. Introduces a conceptual framework for integrating strategy and finance for value creation. Emphasizes the roles of corporate governance, corporate social responsibility, and risk management in value creation. Encourages an analysis of investment financing and dividend decisions. Examines non-financial factors that contribute to value.
