Meal prepping is not for everyone It is good for those who value convenience and for those who have more than one person to feed With meal prepping you generally eat the same thing for a few days in a row so if you don't like leftovers or get bored with food meal prepping isn't for you If having nutritious meals that maximize your time and budget is more valuable to you than doing something different every day meal prepping is a great idea I've generally not seen meal prepping for the individual or maybe one other person do a whole family Meal prepping for a whole family would be quite difficult but if you're a family of four it would be a much more manageable task. A food item is stored in the refrigerator for a long time in a slow cooker In addition to the way food is packed the individual nuances of your refrigerator can impact the quality of your refrigerated meals. Some of the less acceptable things are texture and flavor will be a subject to the eater Always begin with the refrigerator guidelines that the FDA and then evaluate them against your own preferences In g
