Oedipus Rex Scene 2:

The Unconscious in Shakespeare's Plays Martin S. Bergmann, 2018-05-01 Just as concerts emerge from the interaction of many instruments so our understanding of Shakespeare is enriched by different approaches to him Psychoanalysis assumes that creative writers have the need to both reveal and conceal their own inner conflicts in their works They leave residues in their works that if we pay attention can become building blocks that reveal aspects of the unconscious Readers may find that the questions raised add to the pleasure of reading Shakespeare and that they deepens their understanding of his plays Topics covered include the pivotal position of Hamlet the poet and his calling the Oedipus complex intrapsychic conflict the battle against paranoia and the homosexual compromise By using psychoanalytic techniques in analyzing his plays and characters the author reveals more about Shakespeare s hidden motivations and mental health Lulu Douglas Jarman, 1991-02-22 This book is a guide to Berg s second opera Lulu written in non technical language and intended for those students and music lovers wishing to become familiar with one of the masterpieces of twentieth century music Jarman presents a clear and concise introduction to the musical language and to the intricate musical and dramatic structure of Berg s opera The volume also examines the literary background the genesis composition and tortuous posthumous career of the work The final chapters survey the performance history and suggest a possible interpretation of this complex and challenging composition An important feature of the book is the inclusion of source documents and critical responses to the opera Illustrated with photographs from the premiere and from recent productions the volume also includes a synopsis bibliography and discography **Educational Film Locator of the Consortium of University Film Centers and R. Staging Fascism Jeffrey Thompson Schnapp, 1996 On an April evening in Florence in 1934 before twenty thousand spectators the mass spectacle 18BL was presented involving two thousand amateur actors an air squadron one infantry and cavalry brigade fifty trucks four field and machine gun batteries ten field radio stations and six photoelectric units However titanic its scale 18BL's ambitions were even greater to institute a revolutionary fascist theater of the future a modern theatre of and for the masses that would end the crisis of the bourgeois theatre This is the complete story of the event a colossal failure to critics and spectators alike which the fascist government took pains to expunge from the annals of the regime The detailed reconstruction of these various aspects of 18BL serves as a springboard for a larger inquiry into the place of media technology and machinery in the fascist imagination particularly in its links to fascist models of narrative historiography spectacle and subjectivity

"Ligeti's Laments: Nostalgia, Exoticism, and the Absolute" Amy Bauer, 2017-07-05 When the Hungarian composer György Ligeti passed away in June 2006 he was widely feted as being one of the greatest composers of our time His complete published works were recorded during his lifetime and his music continues to inspire a steady stream of performances and scholarship Ligeti's Laments provides a critical analysis of the composer's works considering both the compositions themselves and the larger cultural implications of their reception Bauer both synthesizes and challenges the prevailing narratives surrounding the composer's long career and uses the theme of lament to inform a discussion of specific musical topics including descending melodic motives passacaglia and the influence of folk music But Ligeti laments in a larger sense his music fuses rigour and sensuality tradition and the new and influences from disparate high and low cultures with a certain critical and ironic distance reflected in his spoken commentary as well as in the substance of his music The notions of nostalgia exoticism and the absolute are used to relate works of different eras and genres along with associated concepts of allegory melancholy contemporary subjectivity and the voice
