Social Media Abyss Geert Lovink, 2017-09-05 Social Media Abyss plunges into the paradoxical condition of the new digital normal versus a lived state of emergency There is a heightened post Snowden awareness we know we are under surveillance but we click share rank and remix with a perverse indifference to technologies of capture and cultures of fear Despite the incursion into privacy by companies like Facebook Google and Amazon social media use continues to be a daily habit with shrinking gadgets now an integral part of our busy lives We are thrown between addiction anxiety and subliminal obsessive use Where does art culture and criticism venture when the digital vanishes into the background Geert Lovink strides into the frenzied social media debate with Social Media Abyss the fifth volume of his ongoing investigation into critical internet culture He examines the symbiotic yet problematic relation between networks and social movements and further develops the notion of organized networks Lovink doesn't just submit to the empty soul of 24/7 communication but rather provides the reader with radical alternatives Selfie culture is one of many Lovink's topics along with the internet obsession of American writer Jonathan Franzen the internet in Uganda the aesthetics of Anonymous and an anatomy of the Bitcoin religion Will monetization through cryptocurrencies and crowdfunding contribute to a redistribution of wealth or further widen the gap between rich and poor In this age of the free how a revenue model of the 99% be collectively designed Welcome back to the Social Question
