In its fourth European edition, *Services Marketing: Integrating Customer Focus across the Firm* provides full coverage of the foundations of services marketing, placing the distinctive Gaps model at the center of this approach. The new edition draws on the most recent research and uses up-to-date and topical examples. The book focuses on the development of customer relationships through service, outlining the core concepts and theories in services marketing today. New and updated material in this new edition includes new content related to human resource strategies, including coverage of the role of robots and chatbots for delivering customer-focused services. New coverage on listening to customers through research, big data, netnography, and monitoring user-generated content. Increased technology, social media, and digital coverage throughout the text, including the delivery of services using mobile and digital platforms as well as through the Internet of Things. Brand new examples and case studies added from global and innovative companies, including Turkish Airlines, Volvo EasyJet, and McDonald's. Available with McGraw-Hill's Connect, the well-established online learning platform which features our award-winning adaptive reading experience as well as resources to help faculty and institutions improve student outcomes and course delivery efficiency.

[EBOOK: Services Marketing: Integrating Customer Focus Across the Firm](#) Alan Wilson, Valarie Zeithaml, Mary Jo Bitner, Dwayne Gremler, 2012-06-16 The Second European Edition of *Services Marketing: Integrating Customer Focus Across the Firm* by Wilson, Zeithaml, Bitner, and Gremler uniquely focuses on the development of customer relationships through quality service. Reflecting the increasing importance of the service economy, *Services Marketing* is the only text that puts the customer's experience of services at the center of its approach. The core theories, concepts, and frameworks are retained, and specifically the Gaps model, a popular feature of the book. The text moves from the foundations of services marketing before introducing the Gaps model and demonstrating its application to services marketing. In the second edition, the book takes on more European and International contexts to reflect the needs of courses, lecturers, and students. The second edition builds on the wealth of European and International examples, cases, and research in the first edition, offering more integration of European content. It has also been fully updated with the latest research to ensure that it continues to be seen as the text covering the very latest services marketing thinking. In addition, the cases section has been thoroughly examined and revised to offer a range of new case studies with a European and global focus. The online resources have also been fully revised and updated, providing an excellent package of support for lecturers and students.
