

7 WAYS TO STAY SAFE ON CYBER MONDAY

Last year, 300,000 Americans were victims of online fraud – and it cost them a total of \$52 million. The FBI logged more than 2,000 complaints a day. Not surprisingly, much of this fraud happened around the holidays. Here's how to protect yourself...

1. Shop secure sites.

You can tell by the little lock symbol in the top left corner of your browser bar, and by the URL, which starts with HTTPS instead of just HTTP.

2. Shop sites you know and others trust.

If you haven't shopped safely at that site before, search for reviews about it. If those are negative, shop elsewhere.

3. Don't use a search engine.

Search retailers' sites, because sophisticated scammers try to add deceptive or even malicious links to your search results.

4. Use a secure connection.

Even if you do all this, your personal data is at risk if you shop using the Wi-Fi network at your favorite coffeehouse. So shop online from home.

5. Don't use debit cards.

If you do get scammed or hacked, credit cards offer a lot of fraud protection. Debit cards offer almost none.

6. Don't reuse passwords.

The best deals often require you register with the retailer. If you can get by as a "guest," do it. But if you must create a password, make it new and don't repeat it elsewhere.

7. Review your credit card statements.

You should be doing this year-round, but it's especially important during the holidays.

The People's Platform

Astra Taylor, 2014-03-04 From a cutting edge cultural commentator and documentary filmmaker a bold and brilliant challenge to cherished notions of the Internet as the great democratizing force of our age The Internet has been hailed as a place where all can be heard and everyone can participate equally But how true is this claim In a seminal dismantling of techno utopian visions The People's Platform argues that for all that we tweet and like and share the Internet in fact reflects and amplifies real world inequities at least as much as it ameliorates them Online just as off line attention and influence largely accrue to those who already have plenty of both What we have seen in the virtual world so far Astra Taylor says has been not a revolution but a rearrangement Although Silicon Valley tycoons have eclipsed Hollywood moguls a handful of giants like Amazon Apple Google and Facebook still dominate our lives And the worst habits of the old media model the pressure to be quick and sensational to seek easy celebrity to appeal to the broadest possible public have proliferated online where every click can be measured and where aggregating the work of others is the surest way to attract eyeballs and ad

revenue In a world where culture is free creative work has diminishing value and advertising fuels the system the new order looks suspiciously just like the old one We can do better Taylor insists The online world does offer an unprecedented opportunity but a democratic culture that supports diverse voices work of lasting value and equitable business practices will not appear as a consequence of technology alone If we want the Internet to truly be a people s platform we will have to make it so
