Logged In Kate Deemer, 2024-07-17 The year is 2103 and the United States separated into the Red States and Blue States of America over half of a century ago The only Purple position remaining holds the most power and she has eyes in everyone's houses and a hand in every child's education Dr Drosera the CEO of American Education helps keep the graduation rate high and the unemployment rate low so she is widely respected and trusted without suspicion In what is supposed to be her final year two seemingly incorruptible doctoral students are chosen for a one year internship to determine who will take her place as Purple Unfortunately for both of them Dr Drosera is not content with leaving at the end of the year Like the strikingly beautiful carnivorous plant for which she is named she will trap anyone in her way Author Photo Kate Deemer spent the majority of her childhood in West Virginia and lives in Charleston South Carolina She served her community as a high school English teacher for fourteen years She began writing *Logged In* The Foundation in 2020 when she saw the toll COVID had on students and teachers predicting many educators would leave the classroom as a result She holds a BA in English education and an MA in educational leadership from Marshall University Media and Society

Nicholas Carah, 2021-05-05 How do media platforms organise social life How do media empower or disempower our identities How do we understand the impact of algorithms How are media audiences produced and managed *Media Society* introduces the role of the media in social cultural political and economic life unpacking the increasing entanglement of digital media technology with our everyday lives It explores the relationship between meaning and power in an age of participatory culture social media and digital platforms An age where we both create and consume content and where we both give and gain attention translating our social lives into huge flows of data Associate Professor Nicholas Carah shows how a critical approach to power helps us not only to understand the role media play in shaping the social but also how we can become critically informed media citizens ourselves able to participate and be heard in meaningful ways *Media Society* expertly introduces all the key concepts and ideas you need to know and then puts theory into practice by tying them to contemporary case studies From using Ghostery to track how your personal data is being collected to exploring misinformation on social media via Youtube to the reality of internships and freelancing in today's digital media industry It is essential reading for students of media communication and cultural studies *International Business* Stuart Wall, Sonal Minocha, 2015-04-16 We live in a global economy in which over one quarter of the world's recorded output is exported where a change in business practice in Beijing can have a direct impact on a workforce in Birmingham and where support to a customer in Detroit can be provided from Delhi This book provides a clear and concise introduction to this most interdisciplinary of subjects explaining in straightforward language the economic and financial underpinnings of international business and the more subtle organisational and cultural issues increasingly crucial to business success The managerial challenges which face organisations of all types and sizes no matter where they are located are reviewed and explored **HAYWIRE - An IT**

Leaders Tale of Survival Joe DePage, This story is a work of fiction But at the same time it isn't It's a fantastical hyper-sensationalized shadow of what may probably be a similar situation in your own career IT organizations everywhere struggle daily to keep heads afloat in an ever-shifting sea of business requirements New servers new services new lines of business and all the while it's the job of IT to keep technology running That's a hard job This book's fictional premise serves the purpose of telling what I hope is a really fun story I mean it's not every day that puppies and garage doors get to meet in such interesting ways But surrounding that fiction is a parable every IT professional must come to accept You can never have enough AWARENESS It's a little-known fact as Cliff Clavin from the old TV show Cheers would say that the Shih Tzu once guarded Tibetan monks as they pursued greater awareness Today they will be helping us on our journey to greater application and data center awareness The technologies driving our datacenters are more complex than they've ever been and that complexity will only increase as the years go by These days no human alive can keep track of everything all at once unaided Tools help but tools are a means to an end The tools and technologies that bring about better awareness are no different than your average hammer and saw By themselves they accomplish nothing But in the hands of the right person and with proper attention and care they can accomplish just about anything I encourage you to take a few minutes to absorb this short story Enjoy it for the entertainment value it brings And then afterward take another minute to reflect on the message behind the fiction I've offered a few questions after each chapter to get you started Your datacenter and puppies everywhere will thank you

Web Bloopers Jeff Johnson, 2003-05-27 The dot-com crash of 2000 was a wake-up call and told us that the Web has far to go before achieving the acceptance predicted for it in '95 A large part of what is missing is quality a primary component of the missing quality is usability The Web is not nearly as easy to use as it needs to be for the average person to rely on it for everyday information commerce and entertainment In response to strong feedback from readers of GUI BLOOPERS calling for a book devoted exclusively to Web design bloopers Jeff Johnson calls attention to the most frequently occurring and annoying design bloopers from real web sites he has worked on or researched Not just a critique of these bloopers and their sites this book shows how to correct or avoid the blooper and gives a detailed analysis of each design problem Hear Jeff Johnson's interview podcast on software and website usability at the University of Canterbury 25 min Discusses in detail 60 of the most common and critical web design mistakes along with the solutions challenges and tradeoffs associated with them Covers important subject areas such as content task support navigation forms searches writing link appearance and graphic design and layout Organized and formatted based on the results of its own usability test performed by web designers themselves Features its own web site www.webbloopers.com with new and emerging web design no-no's because new bloopers are born every day along with a much-requested printable blooper checklist for web designers and developers to use

Smart Technologies and Design For Healthy Built Environments Ming Hu, 2020-09-10 Smart Technologies and Design for Healthy Built Environment connects smart technology to a healthy built environment that builds

upon the sustainable building movement It provides an overall summary of the state of the art technologies that are applied in the built environment The book covers a broad spectrum of smart technology categories ranging from dynamic operability energy efficiency self regulating and self learning systems and responsive systems The foreseeable challenges that are associated with smart technologies are discussed and outlined in the book Firstly this book provides a snapshot of state of the art smart technologies being applied in the built environment It covers a broad spectrum of smart technology categories ranging from dynamic operability energy efficiency self regulating and self learning systems to responsive systems Secondly this book provides in depth analysis of the four primary components of health biological physical physiological and psychological their effects on wellbeing and cognitive performance are introduced as well Thirdly it connects smart technologies to those health influencing factors by reviewing three completed smart building projects This book can also serve as a basis for education and discussion among professionals and students of diverse backgrounds who are interested in smart technologies smart building and healthy building Smart Technologies and Design for Healthy Built Environment serves as the basis for education and discussions among professionals and students who are interested in smart technologies smart building and healthy building as it bridges the gap between smart technologies and a healthy built environment The book also provides a foundation for anyone who is interested in the impact of smart technology on the health of built environment
