

Reading Comprehension

Read the short passage and answer the questions.

The Dog and the Shadow

It happened that a Dog had got a piece of meat and was carrying it home in his mouth to eat it in peace. Now on his way home, he had to cross a plank lying across a running brook. As he crossed, he looked down and saw his own shadow reflected in the water beneath. Thinking it was another dog with another piece of meat, he made up his mind to have that also. So he made a snap at the shadow in the water, but as he opened his mouth the piece of meat fell out, dropped into the water and was never seen more.

1. What animal was crossing a board?

2. What did the dog have in his mouth?

3. What did the dog see in the running brook?

4. What is the moral of the story?

Handbook of Children's Literacy
Terezinha Nunes, Peter Bryant, 2003-12-31 PETER BRYANT TEREZINHA NUNES The time that it takes children to learn to read varies greatly between different orthographies as the chapter by Sprenger Charolles clearly shows and so do the difficulties that they encounter in learning about their own orthography Nevertheless most people who have the chance to learn to read do in the end read well enough even though a large number experience some significant difficulties on the way Most of them eventually become reasonably efficient spellers too even though they go on make spelling mistakes at any rate if they are English speakers for the rest of their lives So the majority of humans plainly does have intellectual resources that are needed for reading and writing but it does not always find these resources easy to marshal What are these resources Do any of them have to be acquired Do different orthographies make quite different demands on the intellect Do people differ significantly from each other in the strength and accessibility of these resources If they do are these differences an important factor in determining children s success in learning to read and write These are the main questions that the different chapters in this section on Basic Processes set out to answer
