Remote Jobs Price:

Remote Work, Internal Marketing and Human Resource Management Teena Mishra, 2024-12-02 Remote working is a developing idea that many organizations are embracing especially in light of COVID 19 and the rise in demand for remote and hybrid roles. As there is no standard model to use for implementation, a number of problems and difficulties develop as popularity increases and hybrid working environments become normalized. This book presents the views, opinions, and reality of remote work and creating an appropriate internal marketing culture in a remote environment. The key topics explored are the significance of remote work, remote work practice, reshaping the work environment, designing remote work models, remote work challenges, remote work facing business organizations, remote work management innovations and technology, the role of motivation and satisfaction in organizational development, employee empowerment in a remote setting, transparency and commitment for sustainable development, and the future of remote work. This research volume will be of value to researchers, academicians, practitioners, and students in the fields of human resource management, organizational studies, and innovation management.

Compensation Beverly J. DeMarr, Vicki Fairbanks Taylor, Claudia J. Ferrante, 2024-12-18 Compensation: A Balanced Approach covers compensation systems and practices through theory and application. Each chapter looks at compensation from both the employer and employee perspective, giving students a more holistic understanding of the role total rewards play in an organization. Authors Beverly J. DeMarr, Vicki Fairbanks Taylor, and Claudia J. Ferrante help students develop the ability to think critically and ethically about compensation decisions and their effects on both employers and employees.

Proceedings of the 2023 4th International Conference on Management Science and Engineering Management (ICMSEM 2023) Suhaiza Hanim Binti Dato Mohamad Zailani, Kosga Yagapparaj, Norhayati Zakuan, 2023-10-07 This is an open access book. Management science aims to study the dynamic study of human use of limited resources in management activities to achieve organizational goals, complex and innovative social behavior, and its laws. And engineering management refers to the management of important and complex new products, equipment, and devices in the process of development, manufacturing, and production, and also includes the study and management of technological innovation, technological transformation, transformation, layout, and strategy of industrial engineering technology development. The development or breakthrough of management theory is accompanied by the development and progress of science and technology, and the level of science and technology and the level of management theory in each historical period are mutually adaptive, and it can be said that the progress of science and technology plays an important role in promoting the development of management. At the same time, the rapid development and progress of science and technology give a strong injection to the development of engineering and provide the possibility for engineering construction to use new technology, new equipment, new technology, and new materials. Modern management is an important development direction of management science nowadays. And the

use of modern management in engineering has an important role in saving social costs ensuring project quality and improving safety awareness and behavior ICMSEM 2023 will focus on modern management discuss about the benefits that modernization brings to engineering ICMSEM 2023 aims to Develop and advance management science through the study and application of certain issues Open up new perspectives in the sharing of speakers and inspire the audience to new ways of managing in engineering Create a forum for sharing research and exchange at the international level so that the participants can be informed of the latest research directions results and contents of management science which will inspire them to new ideas for research and practice
