Inscribed angles

1. **Inscribed angles**

Notice that θ angle is an inscribed angle and angle θ' is a central angle. The central angle theorem states that the measure of a central angle is twice the measure of an inscribed angle that intercepts the same arc.

The measure the measure of central angle θ' is 2θ because it intercepts the same arc as the θ inscribed angle.

What if O is the center of the circle in the figure below. What is the value of θ ?

Reading comprehension

Explanation

Step 1: The first step following an introductory phrase containing an action must be the person or thing that would do that action.

Identify the action in the introductory phrase. Then, choose the answer in which the independent clause begins with the noun that does the action.

When collecting the data, the **scientists** predict when and how often all **species** will require protection during their journey to the coast.

The information that immediately follows the introductory phrase "When collecting the data" must be something that collects data. Remember the thing that collects data is the scientist, the scientist should start with the independent clause with the scientist as the subject.

Therefore, the answer that best completes the sentence states that the **scientists** predict when and how often all **species** will need protection during their journey to the coast.
