

CHAOS REPORT 2015

The CHAOS Report 2015 is a model for future CHAOS Reports. There have only been two previous CHAOS reports, the original in 1994 and the 20th edition of 2014. This new type of CHAOS Report focuses on presenting the data in different forms with many charts. Most of the charts come from the new CHAOS database from the fiscal years 2012 to 2015. The CHAOS fiscal year starts March 1 and runs until the end of February. A few of the charts are from the new SURF database to highlight certain information. The purpose of this report is to present the data in the purest form without much analysis and little thought leadership. Analysis and thought leadership are offered in the CHAOS Manifesto series of reports.

Another major change is how we define success. We have multiple definitions, including our newest. We coded the new CHAOS database with six individual attributes of success: OnTime, OnBudget, OnTarget, OnGoal, Value, and Satisfaction. Our traditional definition is OnTime, OnBudget, and OnTarget. This means the project was resolved within a reasonable estimated time, stayed within budget, and contained a good number of the estimated features and functions. Our new Modern definition is OnTime, OnBudget, with a satisfactory result. This means the project was resolved within a reasonable estimated time, stayed within budget, and delivered customer and user satisfaction regardless of the original scope. We have the flexibility to present the results for one to six of these attributes in any combination.

ONBUDGET

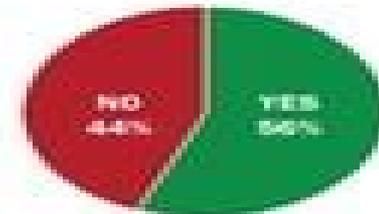

The percentage of projects that were OnBudget from FY2012 - 2015 within the new CHAOS database.

ONTIME

The percentage of projects that were OnTime from FY2012 - 2015 within the new CHAOS database.

ONTARGET

The percentage of projects that were OnTarget from FY2012 - 2015 within the new CHAOS database.

TRADITIONAL RESOLUTION FOR ALL PROJECTS

	2012	2013	2014	2015
SUCCESSFUL	30%	37%	41%	36%
CHALLENGED	30%	40%	40%	45%
FAILED	22%	17%	19%	19%

The traditional resolution of all software projects from FY2012 - 2015 within the new CHAOS database.

148 data, online software defect, represents results from FY2012-2015. The total number of software projects is 25,000-plus, with an average of 5,000 per yearly period.
