Transformation Zahid Pranjol, Alia Amir, 2025-11-13 The field of STEM higher education is currently grappling with the imperative need for transformative discourse to address its historical epistemological and colonial underpinnings. Despite significant advancements in STEM disciplines, there remains a critical gap in inclusivity and equity within higher educational institutes. Recent studies have highlighted the persistent colonial structures that shape STEM education, often marginalizing diverse voices and perspectives. Efforts to decolonize STEM education are gaining momentum, yet there is a pressing need for comprehensive research and reflective insights to uproot these entrenched structures. This research topic aims to address these gaps by fostering a robust dialogue that transcends traditional boundaries, promoting a deeper understanding of the challenges and opportunities in reshaping STEM education through decolonial lenses. This research topic aims to provide a scholarly platform for researchers, educators, and practitioners to contribute groundbreaking research and reflective insights on decolonizing STEM higher education. The primary goal is to facilitate a robust dialogue that transcends traditional boundaries, fostering a deeper understanding of the challenges and opportunities in reshaping STEM education through decolonial lenses.

Engineering Ingenuity NAGC, 2025-12-30 *Engineering Ingenuity: Instruction for High Ability Learners in K-8 Classrooms* offers a groundbreaking exploration of innovative strategies, interdisciplinary approaches, and cutting-edge technologies designed to empower gifted and talented students in STEM education. This updated edition dives deeper into the intersection of engineering, creativity, and advanced cognitive abilities, providing educators with actionable frameworks to inspire the next generation of problem solvers and innovators. Chapters explore interdisciplinary learning by integrating science, mathematics, reading, and engineering design to create dynamic, inquiry-based experiences that foster critical thinking and innovation. This new edition also highlights the transformative potential of artificial intelligence and machine learning in personalized learning, addresses equity and inclusion in STEM by providing strategies to overcome barriers faced by underrepresented Black and Hispanic students, and emphasizes the importance of guided play in developing early math and spatial skills. Additionally, it explores problem-based learning to deeply engage students with engineering concepts and enrichment opportunities that nurture their interests and talents. Packed with evidence-based strategies, practical examples, and visionary insights, this comprehensive resource equips educators, administrators, and parents with the tools they need to transform K-8 classrooms into hubs of creativity, collaboration, and innovation, ensuring high-ability learners thrive in engineering and STEM fields.
