Sensitivity Analysis for Business, Technology, and Policymaking Mariia Kozlova, Julian Scott Yeomans, 2024-09-12
SimDec is a revolution in decision making support SimDec teases out inherent cause and effect relationships and reveals the intricacy of relationships between sets of input and output variables At its core SimDec is an amalgamation of uncertainty and global sensitivity analysis with an innovative visualization technique While straightforward and elegant this novel approach significantly enhances the analytical capabilities of users by readily exposing seemingly a priori counterintuitive behaviours so that they can be readily understood by both technical specialists and non technical users alike This book is the first to articulate the ubiquitous applicability of SimDec and has been written by the leading proponents of the technique The book provides the necessary background to fully understand the underlying approach and then demonstrates its applicability to a wide spectrum of fields such as finance entrepreneurship energy 3D manufacturing geology the environment engineering public policy and even superconducting magnets To facilitate as widespread adoption and penetration of SimDec as possible all supporting computer codes are available open source in Python Julia R and Matlab The innovative material will be of primary benefit to practitioners and researchers analyzing data from the social sciences business science engineering mathematics and computing The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

Conceptualisation and Measurement of Financial Competence Manuel Förster, Mandy Hommel, 2025-09-30 This Open access book offers a pivotal contribution to the field of financial literacy research as it advances the understanding of financial literacy as a holistic competence encompassing cognition motivation emotion attitude behaviour and their interrelationships It provides a comprehensive overview and evaluation of concepts constructs and frameworks related to financial literacy and instruments used to measure financial competence The work also discusses identification synthesis and systematisation of a wide range of cognitive and non cognitive influences on financial behaviour The book not only introduces a unique holistic model of financial competence but also presents a draft of an innovative technology based test instrument designed to simulate and trace complex financial decision making processes and elucidate challenges confronted in complex problem solving situations The aim of this book is to shift from an isolated focus on individual cognitive facets mainly knowledge to a holistic modeling of competence in order to systematise the landscape of research on financial literacy and financial competence The work is instrumental for researchers educators and policymakers in advancing their understanding and methodologies and in paving the way for effective financial education interventions and promoting financially competent behaviour
