**The Business of Media Distribution** Jeff Ulin,2013-10-15 First published in 2013

Routledge is an imprint of Taylor Francis an informa company *Think Christianly* Jonathan Morrow,2011-11-01 Think

Christianity is about seizing the opportunities we have every day to speak the life Jesus offers into our culture. Tragically many such opportunities pass us by unclaimed either because we don't notice them or we have not prepared ourselves to enter into them. And those around us seem to grow increasingly unwilling to hear anything the church has to say. Jonathan Morrow helps church leaders envision and implement ways for their congregations to think Christianly about contemporary questions and to speak in informed, engaging ways. Morrow explores many of the important issues that Christians often hear raised with regard to faith questions about who Jesus was, the good and bad of religion, pain and evil in the world, the reliability of the Bible, sexuality and intimate relationships, and hope for change among others. The life and faith issues that Think Christianly addresses lead to cultural moments where Christianity and contemporary culture intersect. This book will help churches take vital steps toward cultivating compassion and competence in speaking faithfully to a questioning world. **Research**

**Handbook on Electronic Commerce Law** John A. Rothchild, 2016-09-30. This authoritative Research Handbook comprises chapters by leading scholars which will provide a solid foundation for newcomers to the subject and also offer exciting new insights that will further the understanding of e-commerce experts. Key topics covered include contracting, payments, intellectual property, extraterritorial enforcement, alternative dispute resolution, social media, consumer protection, network neutrality, online gambling, domain name governance, and privacy. *Facts and Other Lies* Ed Coper, 2022-02-01

From fringe conspiracy theories to alternative facts, a timely look at how we arrived in the fake news era. Would your younger self believe the news of today? An entire city block blown up by a suicide bomber on Christmas Day because he believed phone towers spread disease. A Representative elected to the US Congress on a platform that Democrats are secretly harvesting an anti-aging chemical from the blood of abused children. Angry rioters in furs and horns overrun the Capitol in a bloody carnage of insurrection. The Prime Minister of Australia employing the wife of his friend who fronts a group the FBI has declared terrorists. A global pandemic which even as they lie dying from it, people refuse to believe exists. Many who sat in shocked disbelief as these events beamed around the world asked the same question: How did we get here? For those rioters, it was the culmination of a journey of online radicalisation that began with the weaponisation of disinformation by their political leaders and outrageously biased news commentators. *Facts and Other Lies* puts fake news in its historical context and explains how disinformation has fractured society, even threatening democracy itself. It explains why disinformation is so potent and so hard to stop, and what we can do to help prevent its proliferation in Australia, where politicians and shock jocks are already operating from the same dark playbook. It outlines how anyone can defuse disinformation in the home, office, or pub, or wherever the deluded gather to spread their nonsense. Be prepared. This is a timely account of a growing malignancy affecting all modern democracies. Kevin Rudd, former Prime Minister of Australia, Ed Coper keenly explains how lying has been normalised in right-wing media, both social and mainstream. The Trump-inspired attack on the US Capitol on 6 January
