

Shuffle the Deck

A pharmaceutical company is testing a new drug for diabetes patients. Due to various side-effects, they start with a very small sample, ten subjects for their first trial. The subjects take the medication with their evening meal. After the meal they test their blood sugar (mg/dL). The hope is that the blood sugar levels will be lower with the new medication. Five subjects were kept in a control group and five took the medication, randomly assigned. Here are the data.

treatment	185	163	125	151	101
control	190	175	178	135	201

Make ten slips of paper (3x5 cards work well) with each of the ten blood sugar levels written on them. Shuffle. Randomly assign five cards to the treatment group and five to control. Calculate the mean difference between the groups. Repeat. 25 times!

1. Graph the mean differences you obtained. You should have 25 such differences. Indicate on the graph the difference from the actual experiment lies.

2. What do you conclude? Is the difference observed in the experiment one that could have happened by random chance? Or does it appear that the difference is unusual and was due to the medication being administered to the five subjects?

Invasion America! Alan Wing,2005-12 The invasion of America was easy There were no amphibious landings no paratroopers fell from the sky They numbered not in the thousands but tens of thousands We worked with them trusted them loved them Behind their serene exteriors beat hearts filled with hatred The death of every American young and old was their goal We made it easy for them If you strike their cities their strength will be exhausted and their spirits will break Sun tzu The Art of War Ryker nodded to the members of the press standing before him Ladies and gentlemen over the past forty eight hours there have been four horrific and evil terrorist attacks conducted against the innocent members of this community and this country These attacks have resulted in the deaths of one hundred and forty seven American citizens and that number will no doubt climb further though we all hope and pray that it does not The killers made no distinctions between man woman or child They attacked without provocation our homes a place of worship and those among us who are the most vulnerable the crime scene photos from the group home still glaringly fresh in his mind I believe these targets were specifically chosen for the severe emotional impact they would wreak on us as a nation The attacks were meant to rattle our state of mind and destroy faith in our way of life We as a people must unite and refuse to allow that to happen
