Child and Adolescent Development David F. Bjorklund, Carlos Hernández Blasi, 2012 Organized topically to realistically present the three overarching perspectives that guide today's researchers and practitioners of developmental psychology David Bjorklund and Carlos Hernández Blasi's CHILD AND ADOLESCENT DEVELOPMENT AN INTEGRATIVE APPROACH shows how the major perspectives on human development must be integrated rather than presented as contrasting and sometimes contradictory ways of looking at development in order to meaningfully understand infants, children, and adolescents as well as how they develop

Child & Adolescent Development Karen Owens, 2002 This chronologically organized child and adolescent development text features an integrative approach to the study of development with a distinguished emphasis on multi-cultural issues Through this integrative framework Owens explores the dynamic interplay of psychological, biological, sociological, and anthropological factors as they contribute to the developmental process Through this multi-disciplinary lens Owens presents the major theories and research of the field and provides strong links to the application of these ideas to daily life and career Owens further expands the integrative theme to include a respectable and fair treatment of issues related to diversity and culture by integrating coverage throughout the text as well as through a separate chapter 2 This inclusiveness provides a uniquely modern, scholarly, and complete view of the child and adolescent development process
