**Transaction Denied** Rainey Reitman, 2026-04-07 Exposes how companies like Visa Chase PayPal Bank of America and Mastercard use their power to silence dissenting voices and hurt democracy through the practice of financial censorship Civil liberties activist Rainey Reitman introduces readers to the concept of financial censorship a form of privatized censorship where banks and payment intermediaries act as censors in ways the government

couldn't do directly without violating the First Amendment Reitman examines financial companies and the role they have played in policing speech as well as the laws and corporate policies that have enabled this form of censorship Weaving together over a decade of research with interviews and narratives from those personally impacted by financial censorship Reitman reveals how financial exclusion has become a tool to pressure marginalized voices into silence From the executive director of a voting rights nonprofit to a teacher of Iranian poetry to adult content creators and the cannabis community Reitman uplifts the voices of those who have been targeted by these powerful institutions She uses their stories as a launching point to explore larger issues about who should have the power to censor in a democratic society Insightful and fresh Transaction Denied exposes this new and alarming form of censorship and offers a path forward by advocating for communities affected by financial exclusion and calling for more transparency of our financial systems Disruptive Innovation in Business and Finance in the Digital World J. high level views that summarize the opinions of many they also read individual reviews to understand the nature of the overall sentiment In a way product details overall sentiment summaries and individual reviews form a network of information that users explore to make their purchase decisions This work studies the user behavior when they are exploring this network of product and sentiment information and how it may relate to online sales [Honest and Unbiased. The Helpfulness of Vine and Incentivized Reviews on Amazon](#) Tom Keller,2021-06-01 Master s Thesis from the year 2016 in the subject Business economics Offline Marketing and Online Marketing grade 1 7 University of Mannheim Lehrstuhl f r Business to Business Marketing Sales Pricing language English abstract The goal of this study is to analyze the impact if any these two types of incentivization based reviews have on the perception of the review by the review reader because these reviews could have a bias or at least could be perceived to have one For this the metric of review helpfulness which is the percentage of helpful votes a review has collected from its readers is analyzed accounting for a number of independent and confounding variables Another aspect that is analyzed in the course of this study is the role of the product in this regard This study is structured as follows in 2 Literature Review the overarching research domain electronic word of mouth is illustrated and previous studies about the helpfulness of online consumer reviews and found effects are presented Also credibility in the context of electronic word of mouth is discussed In the course of 3 Conceptual Background two theories used to develop the tested hypotheses are described one of which is frequently used in context of the helpfulness of online consumer reviews After this the theoretical importance of the three most important observed variables in the statistical model is explained and the tested hypotheses are developed accordingly Data Analysis a comprehensive outline about the entire empirical aspects of this study is given including the choice of confounding variables decisions in regard to the data collection sample finalization regression diagnostics and the final results of the hypotheses tests **Summary of Vaporized - [Review Keypoints and Take-aways]** PenZen Summaries,2022-11-29 The summary of Vaporized Solid Strategies For Success in a Dematerialized World presented here include a short review of the book at the start followed by quick overview of main points and a list of important take aways at the end of the summary The Summary of Vaporized takes an in depth look at the technological landscape of the future As we move further into the digital age it is prudent to be aware of what to anticipate including what may occur to banks jobs and the manner in which we conduct business There is no denying that the internet has changed our lives and whether we like it or not there are many more changes to come in the not too distant future Vaporized summary includes the key points and important takeaways from the book Vaporized by Robert Tercek Disclaimer 1 This summary is meant to preview and not to substitute the original book 2 We recommend for in depth study purchase the excellent original book 3 In this summary key points are rewritten and recreated and no part text is directly taken or copied from original book 4 If original author publisher wants us to remove this summary please contact us at support mocktime com *Online Consumer Reviews* Hessamedin Vali,2016 Consumer reviews as an important source of product information are becoming

popular in online markets. Due to lack of physical access to the product and variation among buyer preferences, there is always the risk of selecting an inappropriate product that doesn't meet a customer's needs. If this happens, not only does the buyer face an uncomfortable situation, but also the seller will be in jeopardy of losing potential customers as well as paying warranty-related costs and expenses.

In the second chapter, the focus is on different types of conflicting information among reviews as factors that affect their informativeness and accuracy of a purchasing decision. Cognitive load theory explains that when a type of review conflict is easy to capture but cannot be related to a product like a conflicting star rating, the cognitive load is too low and the product information cannot be captured. Conflicting attributes can be easily related to a product and they are easy to capture, therefore the cognitive load is medium and the delivered information is high.

In the third chapter, the focus is on the effect of a review's repeating purchase cues on the overall perceived value of the product. In summary, when a positive review includes repeating purchase cues, positive reviews are perceived more helpful than negative reviews. Finally, the value of review dimensions and review format on the review's perceived value is studied. In general, comparison reviews are perceived to be more valuable than noncomparison reviews. However, in the field of consumer reviews, comparing reviews provides too much information and overwhelms the potential buyer. By categorizing information in a table format, the overwhelming issue can be managed, so comparing reviews in a table format is perceived more valuable than existing traditional reviews.
