Gaming Laptop 2025:

Digital Games eBook GURMEET SINGH DANG, [AI in E-commerce Search: Optimizing Product Discovery and Recommendations](#) Anand Vemula, AI is revolutionizing e-commerce search by making it more intuitive, personalized, and efficient. Traditional keyword-based search is evolving into AI-powered semantic search leveraging natural language processing, NLP, deep learning, and reinforcement learning to understand user intent better. One major advancement is multimodal search where customers can search using text, voice, and images for a more interactive shopping experience. Conversational AI assistants will soon replace traditional search bars, providing real-time recommendations based on user preferences. Generative AI plays a crucial role in automated content creation, enabling AI to generate product descriptions, metadata, and SEO-optimized listings, improving search accuracy and discoverability. The future of AI-driven e-commerce search will see the rise of vector-based search, self-learning algorithms, and graph-based search to enhance relevance. Predictive search capabilities will proactively suggest products before users even search, based on past behavior and market trends. Additionally, AI-powered video and augmented reality (AR) search will allow users to interact with products in immersive ways. To prepare for the next wave of AI innovations, businesses must invest in cloud-based AI search APIs, real-time analytics, fraud detection algorithms, and personalization engines. AI will also play a crucial role in ensuring search security, detecting fake reviews, and preventing bot-driven fraud. By 2030, AI-powered e-commerce search will be hyper-personalized, multimodal, predictive, and secure, transforming how consumers find and purchase products online.

[Risk Management for Video Game Professionals](#) Liam Wickham, 2026-01-22. Game development is a high-stakes, high-pressure world where failure often feels inevitable and success relies on navigating uncertainty. This book gives developers, producers, and leaders the tools to manage risk proactively before it becomes a crisis. Grounded in 30 years of cross-industry experience and enriched by real-world case studies, this book offers a comprehensive, practical framework for identifying, analyzing, and mitigating risk across all stages of development, from indie prototyping to AAA multi-studio pipelines. It covers operational, creative, technical, and strategic risks and maps them to game lifecycle stages with clarity and precision. The book is built for the realities of production, and each chapter is paired with actionable templates, toolkits, and conversational techniques designed to help teams spot early warning signs, make better decisions, and build more resilient cultures. Whether you are leading a team through a live ops crunch, juggling dependencies across time zones, or simply trying to avoid the traps that derail so many good games, this book will help you ask better questions, have the right conversations, and treat risk as a creative ally. Become a Risk Management Champion.

Extended Reality Lucio Tommaso De Paolis, Pasquale Arpaia, Marco Sacco, 2024-09-17. The four-volume proceedings set LNCS 15027, 15028, 15029, and 15030 constitutes the refereed proceedings of the International Conference on Extended Reality XR Salento 2024 held in Lecce, Italy, during September 4-7, 2024. The 63 full papers and 50 short papers included in these proceedings were carefully reviewed and selected from 147
