The Lost Cause Cory Doctorow, 2023-11-14 It's thirty years from now We're making progress mitigating climate change slowly but surely But what about all the angry old

people who can't let go For young Americans a generation from now climate change isn't controversial It's just an overwhelming fact of life And so are the great efforts to contain and mitigate it Entire cities are being moved inland from the rising seas Vast clean energy projects are springing up everywhere Disaster relief the mitigation of floods and superstorms has become a skill for which tens of millions of people are trained every year The effort is global It employs everyone who wants to work Even when national politics oscillates back to right wing leaders the momentum is too great these vast programs cannot be stopped in their tracks But there are still those Americans mostly elderly who cling to their red baseball caps their grievances their huge vehicles their anger To their alternative news sources that reassure them that their resentment is right and pure and that climate change is just a giant scam And they're your grandfather your uncle your great aunt And they're not going anywhere And they're armed to the teeth The Lost Cause asks What do we do about people who cling to the belief that their own children are the enemy When in fact they're often the elders that we love At the Publisher's request this title is being sold without Digital Rights Management Software DRM applied **The Publishers Weekly**, 2010

Quill & Quire, 2010 *Content Cory Doctorow, 2008* A collection of previously published articles and essays **The Bookaholics Guide to Book Blogs** Rebecca Gillieron, Catheryn Kilgarriff, 2007 The first ever guide to the top book blogs including interviews and sample reviews *Red Team Blues* Cory Doctorow, 2023-04-25 New York Times bestseller Cory Doctorow's *Red Team Blues* is a grabby next Tuesday thriller about cryptocurrency shenanigans that will awaken you to how the world really works Martin Hench is 67 years old single and successful in a career stretching back to the beginnings of Silicon Valley He lives and roams California in a very comfortable fully furnished touring bus The Unsalted Hash that he bought years ago from a fading rock star He knows his way around good food and fine drink He likes intelligent women and they like him back often enough Martin is a contain your excitement self employed forensic accountant a veteran of the long guerilla war between people who want to hide money and people who want to find it He knows computer hardware and software alike including the ins and outs of high end databases and the kinds of spreadsheets that are designed to conceal rather than reveal He's as comfortable with social media as people a quarter his age and he's a world level expert on the kind of international money laundering and shell company chicanery used by Fortune 500 companies mid divorce billionaires and international drug gangs alike He also knows the Valley like the back of his hand all the secret histories of charismatic company founders and Sand Hill Road VCs Because he was there at all the beginnings He's not famous except to the people who matter He's made some pretty powerful people happy in his time and he's been paid pretty well It's been a good life Now he's been roped into a job that's more dangerous than anything he's ever agreed to before and it will take every ounce of his skill to get out alive At the Publisher's request this title is being sold without Digital Rights Management Software DRM applied *Little Brother & Homeland* Cory Doctorow, 2020-07-07 Cory Doctorow's two New York Times bestselling novels of youthful rebellion against the torture and surveillance state now available in a softcover omnibus A wonderful

important book I'd recommend Little Brother over pretty much any book I've read this year Neil Gaiman Little Brother Marcus Yallow is seventeen years old when he skips school and finds himself caught in the aftermath of a terrorist attack on San Francisco In the wrong place at the wrong time Marcus and his friends are apprehended by the Department of Homeland Security and whisked away to a secret prison where they are brutally interrogated for days When the DHS finally releases them Marcus discovers that his city has become a police state He knows that no one will believe him which leaves him one option to take down the DHS himself Can one brilliant teenage hacker actually fight back Maybe but only if he's very careful and if he chooses his friends well Homeland A few years after the events of Little Brother California's economy collapses and Marcus finds himself employed by a crusading politician who promises reform Then his former nemesis Masha emerges with a thumbdrive containing WikiLeaks style evidence of government wrongdoing When Marcus witnesses Masha's kidnapping by the same agents who detained and tortured him earlier he has to decide whether to save her or leak the archive that will cost his employer the election and put thousands at risk Surrounded by friends who consider him a hacker hero stalked by people who look like they're used to inflicting pain Marcus has to act and act fast As dead serious as Nineteen Eighty Four as potentially important a novel of ideas with a much more engaging central character and an apparently inexhaustible supply of information on everything from brewing coffee to sneaky surveillance and how to defeat it The Wall Street Journal on Homeland At the Publisher's request this title is being sold without Digital Rights Management Software DRM applied

Bulletin of the American Society for Information Science and Technology, 2004 **Poesy the Monster Slayer** Cory Doctorow, 2020-07-14 New York Times bestselling author Cory Doctorow and illustrator Matt Rockefeller present a sweetly scary picture book about a girl whose monster catching activities delay her bedtime in Poesy the Monster Slayer A monster slayer needs no bedtime Once her parents are off to bed Poesy excitedly awaits the monsters that creep into her room With the knowledge she's gained from her trusty Monster Book and a few of her favorite toys Poesy easily fends off a werewolf a vampire and much more But not even Poesy's bubblegum perfume can defeat her sleep deprived parents At the Publisher's request this title is being sold without Digital Rights Management Software DRM applied

Talking Book Topics, 2016 **Heeb**, 2006 Enshittification Cory Doctorow, 2025-10-07 Enshittification it's not just you the internet sucks now Here's why and here's how we can disenshittify it We're living through the Enshittocene the Great Enshittening a time in which the services that matter to us that we rely on are turning into giant piles of shit It's frustrating Demoralizing Even terrifying Enshittification identifies the problem and proposes a solution When Cory Doctorow coined the term enshittification he was not just finding a funner way to say things are getting worse He was making a specific diagnosis about the state of the digital world and how it is affecting all of our lives and not for the better The once glorious internet was colonized by platforms that made all but magical promises to their users and at least initially seemed to deliver on them But once users were locked in the platforms turned on them to make their business customers happy Then

the platforms turned to abusing their business customers to claw back all the value for themselves In the end the platforms die Doctorow s argument clearly resonated Once named it became obvious that enshittification is everywhere so much so that the American Dialect Society named it its 2023 Word of the Year and was cited as an inspiration for the 2025 season of Black Mirror Here now in Enshittification the book Doctorow moves the conversation beyond the overwhelming sense of our inevitably enshittified fate He shows us the specific decisions that led us here who made them and most important how they can be undone At the Publisher s request this title is being sold without Digital Rights Management Software DRM applied
