The World Economic Forum stated in its 2023 Future of Jobs report that 44% of workers skills will change in the next five years Additionally six out of ten workers will require training before 2027 and only half will have adequate training opportunities With this in mind the three most pressing challenges currently facing the Continuing Engineering Education CEE community include

- 1 The shifting skill requirements dictated by the job market Engineering roles in various sectors are evolving demanding a mix of Knowledge Skills and Abilities KSA that is difficult to predict with certainty In addition the pace of Digital Transformation will highly influence these requirements
- 2 The climate change mitigation and adaptation Engineers must reskill and adapt to changing sustainability requirements and educational programs must support this transition
- 3 The underrepresentation of minorities Women racial and ethnic minorities and individuals with disabilities face disparities in opportunities mentorship and inclusion
