Athens From Alexander To Antony

I.J.F. de Jong

Athens From Alexander To Antony:

Athens from Alexander to Antony Christian Habicht, 1997 The conquests of Alexander the Great transformed the Greek world into a complex of monarchies and vying powers a vast sphere in which the Greek city states struggled to survive This is the compelling story of one city that despite long periods of subjugation persisted as a vital social entity throughout the Hellenistic age Christian Habicht narrates the history of Athens from its subjugation by the Macedonians in 338 B C to the battle of Actium in 31 B C when Octavian's defeat of Mark Antony paved the way for Roman dominion over the Hellenistic world For nearly three centuries Athens strove unsuccessfully for sovereignty its foreign policies were shaped by the dictates first of the Macedonian monarchy and later of the Roman republic Yet the city never relinquished control of internal affairs and citizen participation in its government remained strong Habicht lucidly chronicles the democracy's setbacks and recoveries over these years as it formed and suffered the consequences of various alliances He sketches its continuing role as a leader in intellectual life and the arts as Menander and other Athenian playwrights saw their work produced throughout the Greek world and the city's famous schools of philosophy now including those of Zeno and Epicurus remained a stellar attraction for students from around the Mediterranean Habicht has long been in the forefront of research on Hellenistic Athens in this authoritative yet eminently readable history he distills that research for all readers interested in the ancient Mediterranean world

Brill's Companion to the Reception of Alexander the Great, 2018-09-11 Brill's Companion to the Reception of Alexander the Great offers a considerable range of topics of interest to students and academics alike in the long tradition of this subject's significant impact across a sometimes surprising and comprehensive variety of areas Arguably no other historical figure has cast such a long shadow for so long a time Every civilisation touched by the Macedonian Conqueror along with many more that he never imagined has scrambled to own some part of his legacy This volume canvasses a comprehensive array of these receptions beginning from Alexander's own era and journeying up to the present in order to come to grips with the impact left by this influential but elusive figure

Lexicon of the Greek and Roman Cities and Place Names in Antiquity, Ca. 1500 B.C. - Ca. A.D. 500 Keith Branigan, Adolf M. Hakkert, 1992 *Space in Ancient Greek Literature* I.J.F. de Jong, 2012-03-20 This is the third volume in the series *Studies in Ancient Greek Narrative* It deals with the narratological category of space how is space including objects which function as props presented in Greek narrative texts and what are its functions thematic symbolic psychologising or characterising How are longer descriptions organised and integrated into the story Long deemed a mere ancilla narrationis especially in narratives which precede the age of the realist novel space turns out to play an important and multifaceted role in Greek literature
