## **Attendance Chart Little Childrn:**

Asperger's Syndrome in Young Children Laurie Leventhal-Belfer, Cassandra Coe, 2004 The authors provide a diagnostic model based on assessment of the child in contrast to neurotypical children considering relationships at home school or in care They show how to develop early intervention strategies and aid parents teachers and mental health professionals in making informed decisions to nurture the development of AS children

**Teaching Young Children Mathematics** Sydney L. Schwartz, 2005-09-30 Children learn mathematics most effectively in contexts that are meaningful to them Realizing the potential of these contexts for fostering young children s mathematical learning while nurturing and challenging them requires knowledge of mathematics as well as of child development Avoiding the debates surrounding hands on learning vs direct instruction the author focuses on the value of different contexts for learning and illustrates ways to genuinely engage children as active learners The work is rich with examples of children s interactions with each other and with adults as they utilize and extend their understanding of mathematics Examples and guidelines for developing lessons and activities will be useful to educators and parents Chapters explore how we underestimate young children s mathematical capabilities how appropriate sequencing of learning and building on prior knowledge will enhance understanding what teachers including parent teachers need to know and high stakes testing This is a work that brings together the connections between knowing the basics and constructing knowledge in accessible and practical ways
