The Business of Sports Scott Rosner, Kenneth Shropshire, 2011-01-07 The Business of Sports Second Edition is a comprehensive collection of readings that focus on the multibillion dollar sports industry and the dilemmas faced by today's sports business leaders. It covers professional Olympic and collegiate sports and highlights the major issues that impact each of these broad areas. The Second Edition provides insight from a variety of stakeholders in the industry and covers the major business disciplines of management, marketing, finance, information technology, accounting, ethics, and law. Each chapter features concise introductions, a broad range of focused readings, and targeted discussion questions and graphs and tables to convey relevant financial data and other statistics.

Race in American Sports James L. Conyers, Jr., 2014-06-10 These essays critically examine the issue of race in college and professional sports, beginning with the effects of stereotypes on black female college athletes and the self-handicapping of black male college athletes. Also discussed is the movement of colleges between NCAA designated conferences and the economic impact and effects on academics for blacks. An essay on baseball focuses on changes in Brooklyn during the Jackie Robinson years, and another essay on how the Leland Giants became a symbol of racial pride. Other essayists discuss the use of American Indian mascots, the Jeremy Lin spectacle surrounding Asians in pro sports, the need to hire more NFL coaches of color, and ideals of black male masculinity in boxing.

Media Journal Joseph D. Harris, Jay Rosen, Gary Calpas, 1999 In this book we ask students to do three things 1 To keep a media journal in which they reflect on the uses they make of the voices and images of popular culture 2 to read and respond to the work of other media critics to test their own views and experiences against those of the writers included in these pages and 3 to try their hands at writing media criticism themselves All three kinds of work ask students to find and write about texts from the media culture around them to think critically about what they see and hear on their television sets and radios in magazines and newspapers on city streets and shopping malls at the movies and at concerts and clubs To put it another way we believe that a book such as this can provide only some of the materials for a course on writing about popular culture that the remaining materials must always come from the media themselves and the experiences students have with them Our aim is not to inculcate students with a certain set of critical methods or terms or to introduce them to the academic study of popular culture but to offer them opportunities to rethink and write about their own experiences with the media to come to their own understandings of our common culture
