Kafka and Baudelaire the volume explores key themes in autotextuality such as the functions of creative memory the connections between word and image and the hermeneutic relationships and steps of transformation between texts This innovative work addresses topical questions of importance in literary theory today and will be of interest to students and scholars in literary studies and related areas of study within such fields as cognitive science quantum mechanics and psychology

Speaking from experience Nancy Kennedy offers biblical truth practical help and comforting insight from women who have walked in your shoes and who have come to better trust God and more fully understand what to do and what not to do When He Doesn't Believe
