**Management Communication** James S. O'Rourke, 2019-04-18 This textbook introduces students to the strategic communication methods that are crucial to master in order to develop into effective and ethical managers at all levels of business. Effective communication skills are necessary for success in the business world and O'Rourke has written a highly readable book filled with anecdotes and examples to engage students in the learning process. This edition includes several classic and new features. The strategic approach is integrated throughout the book, allowing students to understand how a communicated message impacts the business as a whole. Case studies throughout the book provide students with hands-on experience of scenarios they will encounter in the real world. The book includes at least three dozen fresh classroom-tested cases. An ethical thread is woven through the text, demonstrating how ethical decision making can be applied in all aspects of communication. Separate chapters on technology, including social media, intercultural communication, nonverbal communication, and conflict management, provide students with the skills to building relationships and influencing stakeholders, key skills for any manager. A companion website includes comprehensive support material to teach this class. **Management Communication** a complete resource for students and instructors. **Agush Nyang** Isaac

Agumba, 2025-10-06 In *The First Epistle of Agush*, the Apostle to the World, Agush Nyang is a raw, unfiltered story of survival, loss, betrayal, faith, crime, love, and relentless resilience. Born and raised in utter hardship and pushed to the margins of society, Isaac Agumba tells the brutal truth in this story of a young boy growing up unwanted in rural Kenya but barely surviving such horrors. Against impossible odds, the boy in *Agush Nyang* rises academically, only to be met again and again by poverty, exploitation, systemic injustice, and his own destructive choices. From slums and shanties to university halls, from banking jobs to fraud, from faith to fury, from love to loss, this book pulls no punches. It exposes the uncomfortable realities of modern African life: corruption, desperation, masculinity, sex, crime, ambition, and the thin line between survival and self-destruction. This is not a story polished for comfort. It is a confession. A record. A rebellion against silence. For readers of gritty autobiographies, African memoirs, survival and redemption stories, unfiltered, controversial life narratives, Agush Nyang asks one haunting question: How much suffering can a human endure before breaking or becoming something else entirely?

**Security and the Networked Society** Mark A. Gregory, David Glance, 2014-07-08 This book examines technological and social events during 2011 and 2012, a period that saw the rise of the hacktivist, the move to mobile platforms, and the ubiquity of social networks. It covers key technological issues such as hacking, cyber crime, cyber security, and cyber warfare, the internet, smart phones, electronic security, and information privacy. This book traces the rise into prominence of these issues while also exploring the resulting cultural reaction. The authors' analysis forms the basis of a discussion on future technological directions and their potential impact on society. The book includes forewords by Professor Margaret Gardner, AO, Vice Chancellor and President of RMIT University, and by Professor Robyn Owens, Deputy Vice Chancellor, Research at the

University of Western Australia Security and the Networked Society provides a reference for professionals and industry analysts studying digital technologies Advanced level students in computer science and electrical engineering will also find this book useful as a thought provoking resource
