Young, 2018-04-20 Forensic science is in crisis and at a cross roads Movies and television dramas depict forensic heroes with high tech tools and dazzling intellects who inside an hour notwithstanding commercials piece together past event puzzles from crime scenes and autopsies Likewise Sherlock Holmes the iconic fictional detective and the invention of forensic doctor Sir Arthur Conan Doyle is held up as a paragon of forensic and scientific inspiration does not reason forward as most people do but reasons backwards Put more plainly rather than learning the train of events and seeing whether the resultant clues match those events Holmes determines what happened in the past by looking at the clues Impressive and infallible as this technique appears to be it must be recognized that infallibility lies
