

A 3D finite element model of a pile foundation in soil. The soil is represented by a mesh of elements, colored with a gradient from blue at the top to red at the bottom, indicating different soil layers or stress levels. Five vertical piles are shown, extending from the ground surface down into the soil. The top of the piles is connected to a horizontal structure, possibly a pile cap or a foundation slab. The overall shape is a rectangular prism with a slightly irregular top surface.
