Strategic Innovative Marketing and Tourism Androniki Kavoura, Victor-Alexandru Briciu, Arabela Briciu, 2025-08-30 This open access book presents the latest findings of researchers from around the globe who presented their work at the 11th International Conference of Strategic Innovative Marketing and Tourism ICSIMAT in 2024. It provides an up-to-date information and discusses current trends, issues, and debates, both theoretical and practical research on strategic innovative marketing and tourism and applications from social media and emerging technologies in Artificial Intelligence and the Internet of Everything. Topics covered in the chapters include social media in marketing and tourism, hospitality culture, strategic tools and techniques employed and implemented by some of the top research laboratories in the world to the industry. This book brings together work from both academia and industry and continues the successful impact of the previous years conference on the academic discussion of the topics.

Optimization in Artificial Intelligence and Data Sciences Lavinia Amorosi, Paolo Dell'Olmo, Isabella Lari, 2022-05-20 This book is addressed to researchers in operations research, data science, and artificial intelligence. It collects selected contributions from the first hybrid Optimization and Decision Science ODS2021 international conference on the theme Optimization and Artificial Intelligence and Data Sciences, which was held in Rome 14-17 September 2021 and organized by AIRO, the Italian Operations Research Society, and the Department of Statistical Sciences of Sapienza University of Rome. The book offers new and original contributions on different methodological optimization topics, from Support Vector Machines to Game Theory, Network Models, from Mathematical Programming to Heuristic Algorithms and Optimization Methods for a number of emerging problems, from Truck and Drone delivery to Risk Assessment, from Power Networks Design to Portfolio Optimization. The articles in the book can give a significant edge to the general themes of sustainability and pollution reduction, distributive logistics, healthcare management in pandemic scenarios, and clinical trials, distributed computing, scheduling, and many others. For these reasons, the book is aimed not only at researchers in the Operations Research community but also for practitioners facing decision-making problems in these areas and to students and researchers from other disciplines, including Artificial Intelligence, Computer Sciences, Finance, Mathematics, and Engineering.
