Inside Jobs Joe Payne, Jadee Hanson, Mark Wojtasiak, 2020-09-29 From data security company Code42 Inside Jobs offers companies of all sizes a new way to secure today's collaborative cultures one that works without compromising sensitive company data or slowing business down Authors Joe Payne Jadee Hanson and Mark Wojtasiak seasoned veterans in the cybersecurity space provide a top down and bottom up picture of the rewards and perils involved in running and securing organizations focused on rapid iterative and collaborative innovation Modern day data security can no

longer be accomplished by Big Brother forms of monitoring or traditional prevention solutions that rely solely on classification and blocking systems. These technologies frustrate employees, impede collaboration, and force productivity workarounds that risk the very data you need to secure. They provide the illusion that your trade secrets, customer lists, patents, and other intellectual property are protected. That couldn't be farther from the truth as insider threats continue to grow. These include well-intentioned employees inadvertently sharing proprietary data, departing employees taking your trade secrets with them to the competition, a high-risk employee moving source code to an unsanctioned cloud service. What's the solution? It's not the hunt for hooded malicious wrongdoers that you might expect. The new world of data security is built on security acting as an ally versus an adversary. It assumes positive intent, creates organizational transparency, establishes acceptable data use policies, increases security awareness, and provides ongoing training. Whether you are a CEO, CIO, CISO, CHRO, general counsel, or business leader, this book will help you understand the important role you have to play in securing the collaborative cultures of the future.

[The Science of Intelligent Achievement](#) Isaiah Hankel, 2017-11-30

Smart strategies for pragmatic, science-based growth and sustainable achievement. The Science of Intelligent Achievement teaches you the scientific process of finding success through your most valuable assets: selective focus, how selective are you with who and what you let into your life; creative ownership, how dependent are you on others for your happiness and success; pragmatic growth, how consistently and practically are you growing daily. First, this book will show you how to develop your focus by being very selective with where you spend your mental energy. If you've failed to reach an important goal because you were distracted, misinformed, or overcommitted, then you know the role focus and selectivity play in achievement. Second, you will learn how to stop allowing your happiness and success to be dependent on other people and instead start taking ownership over your life through creative work. Finally, you will learn the art of changing your life through pragmatic decisions and actions. Self-improvement is not the result of dramatic changes. Instead, science has shown that personal and professional change is initiated and sustained by consistent, practical changes. To grow, you must leverage the power of micro-decisions, personality, responsibility, and mini-habits. Your own biology will not let you improve your life in any other way. What do you currently value? What are you working to attain? Have you been taught to value your job title or your relationship with some other person above all else? Have you been convinced that the most valuable things in life are your paycheck, the number of people who say hello to you at the office, and the number of people who say "I need you" at home? Or have you become so passive in what you value that you let anyone and anything into your life as long as whatever you let in allows you to stay disconnected from the cold, hard truth that when things really go wrong in your life, the only person who will be able to fix it and the only person who will be responsible for it is you. If so, welcome to fake success. Passivity, dependence, and the sacrifice of practical thinking and personal responsibility to fuzzy, grandiose ideals and temporary feelings are markers of fake success. Intelligent Achievement, on the other hand, is not a moving target. It's not empty either. Instead, it's sturdy, full, and

immovable It s not something that s just handed to you It s not something you re nudged to chase or coerced into wanting Intelligent Achievement comes from within you It s a collection of values that are aligned with who you are values you have to protect and nurture These values do not increase your dependence on other people and things Instead they relieve you of dependence This kind of achievement is something that you have a part in building from the ground up you know what s in it you chose it someone else didn t choose it for you Achieving real success means you must focus create and grow daily The Science of Intelligent Achievement will show you how

The art of Self Publishing and Website creation Premyogi vajra,2021-01-02 This book is a compilation of Premyogi vajra s blog posts that he has created for demystifyingkundalini.com Premyogi vajra is a self aware and mysterious person With his Kundalini awakening there was a flood of high mentality in his brain Impressed by that he created many books and the above website Regarding his experiences related to book publishing and website making he made them known as his blog posts A separate chapter has been created for each article Readers will surely find this e book interesting informative and comfortable to read Knowledge sharing is a fundamental tool to grow a society Experience gained without subsequent sharing is of little value It remains confined to a single man and gets perished with him Therefore to be able to properly and easily share one s experiences one must know at least basics of self publishing and website creation for these are basic modern tools of sharing knowledge Writer had to deal with great deal of hassel while learning self publishing and website creation He took many years to learn their basic tips So that people do not get suffered like himself he compiled all tips he got while learning these in form of this book Hope that people will find this book brief practical and easy Friends if the art of sharing experiences with everyone is not learned then those experiences would not have special significance Those experiences remain confined to that single man and perish with him In today s times websites and e books are the most important means of sharing experiences Therefore it is important for everyone to have basic knowledge of website creation and self publication This book serves very well the same purpose of achieving this goal

Create Your School Library Writing Center Timothy Horan,2017-10-17 The inventor of the School Library Writing Center makes it easy for librarians and teachers of kindergarten through sixth grade learners to provide highly effective writing instruction Students in the early years of their development have a tremendous capacity for learning By focusing on providing authentic writing experiences for kindergarten through sixth grade students librarians and teachers can help transform students into competent writers well before they reach middle school Written by the inventor of the School Library Writing Center this book is the only one of its kind It gives you clear and easy to read instructions on how to create and structure engaging and productive lessons in writing as well as reproducible worksheets that are ready to implement in your library or classroom Each worksheet relates directly to writing lessons discussed in the book and serves to guide students and their teachers as they explore the exciting world of writing Readers will learn why and how they can create and maintain a School Library Writing Center The book moves sequentially through the grade levels starting with kindergarten and

concluding at grade six with each chapter focusing on a specific grade level The author explains best practices with regards to tutoring writing in each grade discusses the developmental levels and skills expected in a particular grade with regards to writing and reading addresses grade specific Common Core learning standards discusses grade appropriate online resources and technology enabled activities that will help students become better writers and identifies practical tutoring methods that will help students develop as writers
