author team continues to offer an enlightened approach grounded in the fundamentals of classroom experience in Beginning  
Algebra 4e The text reflects the compassion and insight of its experienced author team with features developed to address  
the specific needs of developmental level students Throughout the text the authors communicate to students the very points  
their instructors are likely to make during lecture and this helps to reinforce the concepts and provide instruction that leads  
students to mastery and success Also included are Problem Recognition Exercises designed to help students recognize which  
solution strategies are most appropriate for a given exercise These types of exercises along with the number of practice  
problems and group activities available permit instructors to choose from a wealth of problems allowing ample opportunity  
for students to practice what they learn in lecture to hone their skills In this way the book perfectly complements any  
learning platform whether traditional lecture or distance learning its instruction is so reflective of what comes from lecture  
that students will feel as comfortable outside of class as they do inside class with their instructor      **Tb Beginning Algebra**
