Research Anne McGill-Franzen,Richard Allington,2010-09-17 Bringing together a wide range of research on reading
disabilities this comprehensive Handbook extends current discussion and thinking beyond a narrowly defined psychometric
perspective Emphasizing that learning to read proficiently is a long term developmental process involving many interventions
of various kinds all keyed to individual developmental needs it addresses traditional questions What is the nature or causes of
reading disabilities How are reading disabilities assessed How should reading disabilities be remediated To what extent is
remediation possible but from multiple or alternative perspectives Taking incursions into the broader research literature
represented by linguistic and anthropological paradigms as well as psychological and educational research the volume is on
the front line in exploring the relation of reading disability to learning and language to poverty and prejudice and to
instruction and schooling The editors and authors are distinguished scholars with extensive research experience and
publication records and numerous honors and awards from professional organizations representing the range of disciplines
in the field of reading disabilities Throughout their contributions are contextualized within the framework of educators
struggling to develop concrete instructional practices that meet the learning needs of the lowest achieving readers
